About our cemeteries

We operate and maintain the Kiama (Bombo), Jamberoo and Gerringong cemeteries plus the closed Kendall's Cemetery.

Maps and plans for the three main cemeteries are available below.

We maintain the records of burials and the placement of ashes within our cemeteries. Please [contact us](#) if you require assistance in locating a grave or plot.

We also manage the sale of burial plots and columbarium niches. Costs can be found in the Engineering - Cemetery Section of our fees and charges document. Please also see [brief fees and charges summary valid until 30 June 2019](#).

It is also recommended that you view the [cemeteries procedure](#) document prior to purchase so that you are familiar with our requirements for masonry, plaques, etc. To purchase plots or niches you will need to complete the [Application for Interment Right](#).

Our staff also liaise with the funeral director to provide burial services. The funeral director should complete the [Application for Burial](#) on your behalf.

A monumental mason must complete a [Memorial Permit Application](#) for the erection of a headstone.
