### New home needed

From time to time we receive animals at the pound that have been surrendered or found by one of our rangers or a member of the public. Animals are offered for re-homing however there are currently no animals needing new homes.

Re-homed animals normally require desexing, microchipping and registration however we can provide complimentary vouchers and discounted veterinary services in some instances.

If you are interested in talking to our Rangers about re-homing please phone 0409 917 092.
