

Community Vision

We live where the sea has sound, energy and life

We look to the rolling hills, the jagged coastline, and can feel the culture and heritage that went before us

As we grow, we respect what makes our home special, but we move with the times

We choose our own path, think deeply and allow change

We are a strong, adventurous, creative and courageous community

Our way of life supports our economy, global or local, regional or our own street, we call this place home

We embrace difference of thought, experience and ideas, our differences add vibrancy and character

The knowledge of who we were, who we are and what we can be, makes us strong

Purpose

This plan is about our organisation, about the Council that serves our community.

"The community members and stakeholders of Kiama LGA ... have called upon the Council to demonstrate long-term commitment to, and strong governance of the vision."

Welcome: Our Commitment

The people of Kiama LGA love where they live. They value the connections between people and places and the unique lifestyle that communities have been able to build in this city. They love the distinct characteristics of the towns and villages, the rolling hills and rural landscapes, the ever-changing seas, the migration of the whales and the active lifestyle that comes of landscapes that shape us.

We share what makes here special with family, friends and visitors; delighting in the opportunities that create and connect us. Ours is a destination to delight; an easy and accessible opportunity to visit and enjoy the lifestyle and beautiful environment for a day or a holiday; or to stay and appreciate all of the good things in life, for a lifetime.

We want sustainable and carefully considered growth to ensure we retain what makes here special. As populations grow and change, pressure is placed on our environment and our memories. Defining our essence and refining our strategies to reflect our pathways requires careful consideration and deep engagement; knowledge of what has come before to create our culture and what makes our place special is essential to creating the future we dream of.

Our Aboriginal heritage requires further exploration for understanding. The stories need to be told for us to protect the cultural sites of the Wodi Wodi and the Dharawal who were the custodians of this land from time immemorial. Their stories and connection to land and place, should be shared by all of us. We should make it part of our future shape. Our past, their past should be the foundation on which the future is built.

We face challenges and opportunities from pressures such as tourism at peak season; an aging population; infrastructure maintenance and management with limited resources; and differing priorities from within and upon our communities. We all want what is best for our region; to cultivate opportunities, to create a future and a proud legacy, to care for our people. We accept the challenges as opportunities to grow and strengthen, to distil the essence of what is important

These messages are at the heart of the engagement feedback we have heard. We share the care and concern for protecting our natural environment, the desire to leave a legacy for the future that retains what makes this region special and to create a sense of adventure as we seek always to do better and be better, than we were before.

A community vision for our treasured region, the community vision that now guides the work of Kiama Municipal Council.

The process to create Kiama: Strategic Choices for a Sustainable Future has taken care to ask, engage and research. Council has engaged on a wide range of significant issues over the past four years. We have also engaged with deliberation to ask "what matters to you" through workshops, surveys and submissions. We have reflected on reports of community satisfaction, explored and distilled regional strategies, assessed our role in contributing to state plans and looked at ways we can collaborate to best achieve the vision of our community. The CSP is our response.

It is now Kiama Councils' aim to honour and respond to the hundreds of hours of effort community members contributed by showing how the Council will provide active stewardship of the vision and help make it a reality. The Council values the collective ownership of Kiama LGA that community members feel. We are committed to continuing to work together to achieve a future for our LGA that benefits everyone.

Welcome to the Kiama Municipal Council Delivery and Operational Plan 2022 – 2032

Mayors Message

We are proud to present this Delivery Program to our community, developed by the newly elected Council in response to the priorities identified in the CSP, our community strategic plan. As we develop this plan Council has already addressed a number of challenges and has sought to create new opportunities.

"I see Council as an extension of the community, and with the Councillors' support we will be able to stabilise Council and create a prosperous community".

As we build a strong foundation for the future we will use the Kiama CSP and this Delivery Plan as our roadmap; to support the vision clearly outlined by our stakeholders' become actions that we, as a Council, can deliver.

Covid-19 significantly impacted all of us. Restrictions imposed under the Public Health Orders resulted in the Local Government Elections, which were scheduled for 12 September 2020, to be postponed until 2021. This change has also resulted in the postponement of the requirement for councils to develop a new 10-year Community Strategic Plan until 30 June 2022. Council's finances were significantly impacted by the COVID-19 pandemic. Kiama Council, along with many other councils across the country in the past 18 months, has had a challenging time financially. The economic impacts of environmental disasters and COVID-19 have affected Council's budget, with a reported operational loss of \$17.325 million since 2020 through to this financial year.

As with a third of other Councils', this year we find ourselves asset rich and cash poor. I am sure that there are many in our community who can relate. But, as with those who own assets within this community, we know that now is a great time to capitalise on the market and turn our assets into cash. This is a slow process, and one with many emotions experienced. We are exploring all the options and asking experts to help us make the best possible decisions, for our community now and our community of the future. Helping us to get it right are

- ARIC
- Office of Local Government
- A range of expert investigations and reports for our consideration

There are some big decisions ahead and a lot of factors to consider.

Not all of the decisions are comfortable or easy. Some are emotional, some just because any change can be hard, others because the change takes us in new directions. Throughout this process, we are committed to open and honest communication about the decisions being considered.

Over the next 4 years we will be asking a lot of the big questions that must be asked. Such as

- Is the provision of a service or facility the job of Local Government?
- Are we the best organisation to provide the service, etc?
- Does it meet the needs and expectations of our community?
- Do we have the right skills, abilities and resources?
- Can we afford it?

These are important questions that must be asked. And they must be asked and answered transparently, so that our communities understand the complexities of the issues we face and the processes we undertake to ensure excellent decision making. Some of the decisions are easy, some are contentious. We will be asking these questions with an underpinning set of Social Justice Principles and the Four Pillars of Sustainability to guide strategic decision making.

Our continued focus on financial sustainability in recent years is clear throughout this plan. This Operational Plan 2022-23 and Delivery Program 2022-26 demonstrates the commitment of Council to working with the community to ensure we can continue delivering the highest level of services and programs achievable.

Message from the CEO

We know that not everyone in our community holds the same view or priorities. However, we as a community have a responsibility to actively engage with the issues we face.

Council will inevitably face difficult decisions in reviewing its 10-year long-term financial plan and future budgets may need to balance a reduction in operational programs and capital works programs, to ensure the Municipality remains financially sustainable.

As you read through this program, the extent of Council's operations will become evident. From events and activations, development assessment and compliance to facilities and sport and recreation – the work of Council impacts on our residents each and every day, often without anyone realising.

This Delivery Program will see a range of projects underway over the next four years, such as the Hindmarsh Park project, improved connections between our communities with the Jamberoo Cycleway and joint projects with our communities. Our focus on renewing and replacing ageing facilities, roads and drainage will continue, as well as construction of new assets that improve our community life.

We will continue to assess the organisation's performance to ensure we can meet the needs of a changing community, and we will continue to assess key internal processes to support improved transparency. We will also continue a review of Council services and structure, to ensure we remain sustainable and well managed into the future.

Council will continue to report to the community on a regular basis, so that you can be confident that we are working to achieve the best outcome for the community, in extremely difficult circumstances.

I want to thank our staff as we look forward to the implementation of this Delivery and Operational Plan with a vision for the future and a roadmap to guide us.

Kiama Municipality Past and Present

"We love our community and the things that make it special – its beach environment, built heritage and the green hills that form our backdrop and which cushion our communities"

Where we live

- Years of continuing Aboriginal culture and custodianship: 50 000+
- Land area: 25 766ha
- A bird lovers paradise with water birds, kingfishers, thornbills, wrens, honeyeaters, the brown cuckoo dove, just to name a few.
- Kiama Coastal walk covers 20km of walking track.
- A diverse range of vegetation communities including eucalyptus forests, rainforests, shrublands, wetlands and grasslands.
- Bombo Headland is one of the most significant geological sites in NSW.
- Proportion of Kiama LGA protected lands: 25%
- Humpback and Southern Right whales migrate from May November; while the dolphins play all year round.

"we do not reject change and growth but we want it managed so that our blend of scenic beauty, heritage and friendliness is not lost for future generations"

Where we come from

- People that identify as Aboriginal and/ or Torres Strait Islander: 1.7%
- People born overseas: 14% Top region: North-west Europe: 8%
- Australian citizens: 89%
- Number of visitors in 2020-2021: 1.1m
- 95% of all visitors are from NSW
- 67% of all visitors are on a holiday, while 19% are visiting friends and family
- Tourism in Kiama contributed over \$244 million to the local economy in 2019 and is Kiama's biggest economic driver

How we relate

- Proficient in English: 97%
- Residents that volunteer: 22%
- People who speak a language other than English at home: 4.3% however only 0.3% speak another language and report having poor or no English skills.

How we live

- Number of households: 20,689
- Households renting: 16.5%
- Owned Outright: 37%
- Purchasing a home (mortgage) 36.5%
- 82% live in a separate dwelling; 29% of dwellings have 2 occupants.
- 12% of dwellings are medium density; 2% are high density

"Tourism is valued as the lifeblood of our economy ... "we wish to build on our strengths as a destination of choice and mitigate against its sometimes unintended consequences"

How we work

- In 2016 34% of households had an income of above \$2,000 per week.
- In 2019 the median income was \$48, 845 pa excluding govt benefits.
- Average commute distance: 27 km
- Total number of businesses: 1986
- Unemployment rate: 2.4%
- Number of people who work: 8938 of the total 24,006 are in paid employment.
- Kiama has 5620 jobs and a thriving economy worth 1.668 billion annually

Our Council, Facilities and Assets

We are responsible for the following assets and facilities:

- o 152 public buildings
- o 32 amenities
- o 308kms of road
- o 64 carparks
- o 61kms drainage
- o 35 bus shelters
- o 83kms footpaths and cycleways
- o 55 bridges / major culverts
- o 137 parks and open spaces
- o 32 playgrounds
- o 5 saltwater pools
- o 6 boat ramps
- o 4 cemeteries

Our Place in the Region

The development of our Delivery Program 2022-26 and Operational Plan 2022-23 directly responds to our Community Strategic Plan, as well as our broader strategic context (e.g. state and regional plans).

Through our Delivery Program and Operational Plan we will continue to work proactively with our partners to respond to the evolving strategic context, so we can maximise the future opportunities for Kiama Municipality.

Kiama Municipality is a place of opportunity. We have all of the attributes needed to thrive economically, environmentally, socially and financially. Enhancing opportunities to thrive are the many other plans and strategies that relate to our region; and we have been careful and considered in our development of strategies and actions to enhance opportunities where they arise. Some of the regional and statewide plans that we have considered include;

- o The Greater Cities Commission: the creation of a globally competitive city region through strategically bringing together six cities; this includes the Illawarra-Shoalhaven region.
- NSW Premiers Priorities
- o Future Transport Strategy 2056
- NSW State Infrastructure Strategy
- o RDA Illawarra Shoalhaven Plan 2041
- o Destination 2036
- o NSW Regional Economic Development Strategy
- o Illawarra Shoalhaven Joint Organisation Strategy
- o Local Strategic Planning Statement

Our Organisation - Kiama Municipal Council

Our Mayor and Councillors

Kiama Municipal Council is led by our Elected Council, comprised of 9 Councillors who are elected every 4 years through the Local Government elections.

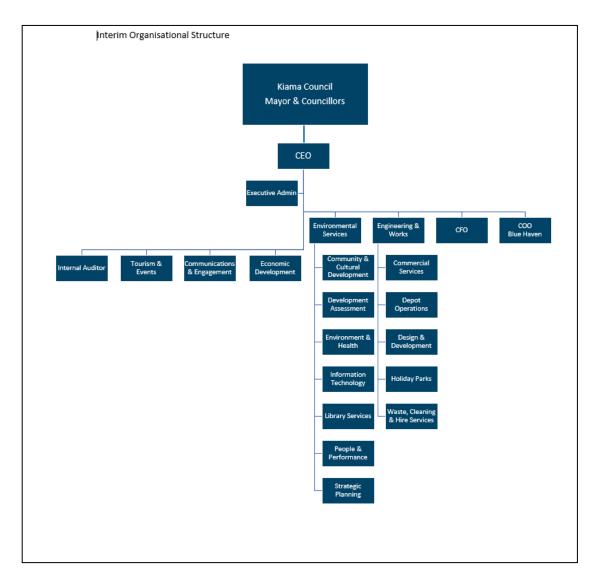

The Council is responsible for electing a Mayor and Deputy Mayor every 2 years. Our Elected Council plays an important role in representing the community, and ensuring that the community's aspirations for our Local Government Area (LGA) are addressed through our Delivery Program and Operational Plan.

Our Elected Council achieves this by providing civic leadership for the community, ensuring the financial sustainability of Council, developing and endorsing IP&R documents, and reviewing Council's performance in an ongoing manner. In the image are our elected representatives; elected in the December 2021 Local Government Elections.

Our Executive Leadership Team

Our Executive Leadership Team is responsible for providing strategic, operational and cultural leadership to inspire our staff to work together to achieve our Delivery Program and Operational Plan.

Our Executive Leadership Team consists of our CEO, two Directors CFO and a COO who lead each division of Council as shown below:

Our Commitment

We commit to:

- showing leadership and demonstrating to communities and stakeholders that the future of Kiama LGA will not be left to chance
- being a strong advocate for our region, inspiring others to come on board with the vision
- actively listening to, and engaging with, our communities and our stakeholders to develop and implement the vision
- approaching the vision with a spirit of partnership, actively seeking to work toward vision outcomes in collaboration with other councils, our regional partners such as ISJO (The Illawarra Shoalhaven Joint Organisation), as well as the NSW Government, the Australian Government and other stakeholders
- using the vision to develop Council's strategic planning, and following it through
- treating the parts of the vision as a whole, working with recognition that they all connect
- in choosing priority actions, ensuring the rationale is clear
- linking the vision with the reality of its implementation, recognising that each decision, no matter how small, affects the collective future of the community
- being accountable to the people of Kiama Municipality
- Making financially sustainable decisions even when they are difficult or unpopular; acting with integrity and transparency
- acting on lessons from success and failures, learning from mistakes and finding a better way, rather than shelving and forgetting them
- ensuring that the vision continues to reflect community values, needs and aspirations
- working with elected members and staff to ensure understanding of the vision, so that it remains central to Council thinking beyond election and planning cycles.

Our Strategic Approach

The Municipality work is guided by our Planning and Reporting Framework. This framework fosters transparency, accountability and good decision-making by guiding staff in planning and implementing their work and managing and reporting on organisational performance.

Community Vision

The community vision – Community Strategic Plan is the Municipality's highest-level strategic document. It articulates community values about and aspirations for Kiama Municipality now and into the future based on in-depth engagement. The vision is critical for ensuring that the Council's work aligns with what is important to our communities.

Mission

Council's mission defines a common purpose for all employees at the Council. It places the community at the heart of what we do. *Our mission is*: Kiama Council will work to create a Municipality that has a healthy, vibrant lifestyle, a beautiful environment and a harmonious, connected and resilient community.

Values

The values are a set of guiding principles for the Kiama Council's organisational culture. They inform how we do our work and interact with the community, customers and stakeholders, providing a framework for behaviours that are expected in delivery of our mission and the community vision.

Our values are:

- Values the commitment of the community to our local region
- Recognises the value of the area's rural and coastal lifestyle
- Will strive to maintain the natural beauty of the environment
- Will plan for sustainability
- Will build on the strengths of the community to create a Municipality that is a vibrant place to live, work and enjoy

The Integrated Planning and Reporting Framework

All councils in NSW are required to operate within the Integrated Planning and Reporting (IP&R) framework. The IP&R framework guides how each council develops, documents and reports on their strategic plans for their Local Government Area. The IP&R framework reflects relevant legislative requirements under the Local Government Act 1993. The IP&R framework requires each council to develop and implement a suite of planning documents in response to the CSP.

Community Strategic Plan (CSP) captures and reflects the community's vision and aspirations for Kiama Municipality. This is the 10-year plan that forms a basis for Council to respond to with its planning and delivery.

The **Delivery Program** is the 4-year plan that outlines the specific activities that a council will undertake during its elected term to address the strategies and outcomes outlined in the CSP. It is reviewed and reported on annually.

The **Operational Plan** then sets out the specific actions that will be undertaken on a yearly basis to achieve the Delivery Program, along with the detailed annual budget. The 2022-2023 is the first year of the Delivery Program 2022 – 2026. It includes the details of the actions for each strategy, who is responsible and how it will be measured. It also contains Councils' detailed Annual Budget and Revenue Policy, including proposed rates, fees and charges.

The Resourcing Strategy, which shows how the Council will leverage its available resources to implement the Delivery Program and Operational Plan. Resource Strategies cover

- Long Term Financial Plan
- Workforce Management Strategy
- Strategic Asset Management Strategy

Progress Reporting

Progress is reported through quarterly budget statements, 6-month progress reports, annual reports, and the 4-year State of Our Municipality Report.

Underpinning it all are the Principles of Social Justice

All plans have been developed giving consideration to the four key areas of Community, Environment, Economy and Civic Leadership and are based on the Social Justice Principles¹ of:

Equity: There should be fairness in decision-making, prioritising and allocation of resources, particularly for those in need. Everyone should have fair opportunity to participate in the future of the community. The planning process should take particular care to involve and protect the interest of people in vulnerable circumstances.

Access: All people should have fair access to services, resources and opportunities to improve their quality of life.

Participation: Everyone should have the maximum opportunity to genuinely participate in decisions which affect their lives.

Rights: Equal rights should be established and promoted, with opportunities provided for people from diverse linguistic, cultural and religious backgrounds to participate in community life.

¹NSW Division of Local Government Social Justice Framework 2008-2012

Supporting Documents

Council has a suite of strategies and plans that are called supporting documents. These documents provide strategic direction on a wide range of Council's services, facilities and assets. Key activities and actions contained within the supporting documents have been prioritised and included in the 2022-2026 Delivery Program and 2022-2023 Operational Plan.

Our Delivery Program 2022-26 and Operational Plan 2022-23 has been developed to meet all of the essential elements outlined in the Integrated Planning & Reporting: Guidelines for Local Government in NSW September 2021 (available at https://www.olg.nsw.gov.au).

We present the Delivery Program and Operational Plan in a combined document to highlight the direct link between the 4-year Principal Activities and the annual actions and budget.

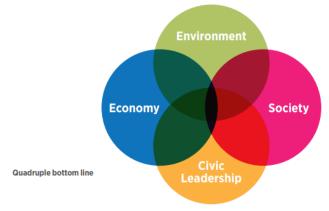

Table 1: Plan Overview

	The Plans	Overview	Reporting Timeline
Guiding Principles	Principles of Social Justice	Equity; Access; Participation & Rights – for current and future communities.	Underpinning all plans and actions.
Our Why	Community Strategic Plan	10 year Overarching plan for Kiama community – the communities priorities and aspirations. Contains the Vision, ultimate outcomes and strategies to achieve this; there are many stakeholders responsible for delivery.	End of Term Report in line with 4 year election cycle
We Asked	Community Engagement Strategy	Genuine and inclusive engagement to support dev of plans, strategies, programs, key activities	Community Engagement Summary Report in line with 4 year election cycle
Our What	Delivery Plan	4 year plan of what Council commits to doing to support the CSP outcomes.	4 year election cycle 6 monthly reporting
Our How	Operational Plan	I year plan of the specific actions (outputs) that Council will deliver to achieve the outcomes identified in the Delivery Plan.	Annual Report 6 monthly reporting
Do we have the staff?	Workforce Management Plan	4 year doc to shape capacity and capability of workforce to achieve Council's goals.	4 year election cycle Annual reporting
Can we afforcit?		Supported by financial reports including: Annual Budget Statement of Revenue Asset Management Plans	4 year election cycle Annual reporting Quarterly Budget reporting
How Do we know? Key Measures	Quadruple Bottom Line	IP&R requires an outcomes measurement framework that addresses the 4 key areas of sustainability; - Social - Economic - Environmental - Civic Leadership	Underpinning all plans and outcome measurement
Continuous Improvemetr and Evaluation	Levels of Service Review	As part of the IP&R Framework all of the services provided by Council are reviewed within the 4 year cycle of Council election. Community engagement is undertaken through this process to ensure effective, efficient and sustainable service delivery.	

Measures: How do we know we are making a difference? Community Indicators

These Indicators are under development to ensure a strong baseline for reporting. A strong outcomes measurement framework will help to measure progress over time towards the achievement of the shared community vision. The establishment of the consistent baseline is outlined as a key action for IP&R in 22/23.

The effectiveness of the Plan is reviewed by measuring the community indicators. Data from the Community Indicators will be used in the State of the Municipality Report to review the implementation and effectiveness of the Plan in achieving its social, environmental, economic and civic leadership goals over the previous council term.

Examples of Indicators include UN Sustainable Development Goals with local measures developed, Community Satisfaction surveys, ABS statistics, well-being index and many others.

Preliminary indicators are listed under each Pillar and key outcomes. These are indicators show whether the community is better off as a result of the work that Council, State government, government agencies and other partners have undertaken.

Ongoing Monitoring and Reporting

We will continually engage and consult with our community and other delivery partners to understand and meet the current and future needs of the Municipality. In addition, we will continually monitor and report on progress against our commitments in this delivery Program and Operational Plan. This includes a focus on outcome reporting to show the influence of our actions on the CSP outcomes. Formal reports will be provided through our quarterly budget review statements, six month progress reports, annual reports and state of the Municipality reporting.

We will regularly report to the community on the progress we are making towards achieving the long-term objectives of the Community Strategic Plan.

Every six months we will complete a Biannual Operational Plan Report. It will focus on the actual number of services and activities we complete (Outputs) and whether we are delivering them as planned and within budget.

This integrates with the Biannual Delivery Program Report. It will focus on demonstrating how our services and activities are meeting our community's expectations (Outcomes).

Every 12 months we will complete an Annual Report, which will focus on our progress in implementing our Delivery Program and Operational Plan.

Every four years we will complete an End of Term Report. This will report on the achievements the outgoing Council has made to implement our Community Strategic Plan during their four-year term.

These four types of reports will be available to the community as reports to Council meetings and published on our website.

We have commenced developing a suite of Community Indicators using data collected by Council, government or community-based agencies which will help us understand how effectively we are contributing to positive change within our community.

In some areas of Council, additional performance measures may be legislatively required. Reporting on performance Council regularly reports on its performance to ensure the community is informed of Council's operations and to track our progress and achievements in meeting the community's priorities.

Our Organisational Challenges and Priorities

Financial Sustainability

- o improving our financial outlook with a robust financial strategy and reporting.
- o tailoring services, focusing on essentials, and seeking savings where possible.
- o Expenditure will be clear, accountable and well reported.
- o The difficult decisions associated with addressing rising operating costs, which are not matched by income, will need to be made.
- o Continued delivery of capital works and services will require Council to create and get value from its partnerships and communication with the community.
- o Acceptable and agreed levels of service will need to be determined for our assets and services, with the community's involvement in setting these levels critical to the effective use of scarce resources.

Organising our Workforce

- o Our structure and culture in the workplace need support, clarity and improvement.
- o As the largest employer in the region, we need to ensure that our greatest asset our people are supported, clear on their roles and responsibilities, and focused on delivering essential customer services.
- o A new salary model and improved performance review systems are in the process of being established.
- Working with our consultative committee, unions and workforce we need to realign ourselves and help reposition the organisations' workforce.
- Employees with skills, training and support to undertake their public service roles.

Asset management and services

- o Improving our asset planning will continue to be a key focus, particularly given the significant assets within our ownership. Council is now the custodian of built assets worth more than \$650 million.
- o Our continued investment in renewal and maintenance of our assets will ensure our they continue to be managed sustainably for current and future generations.

Working in Partnership

- o Our relationship within the region and with the community needs continual effort and clear vision.
- o Our input into regional planning, boards, and the joint organisation of Council needs to add value to the positioning of Kiama.
- o Our engagement with our residents, groups and people through community engagement, committees and open and transparent government is crucial.
- o The development of the new Community Strategic Plan will provide an important vision for us to use to align our work to.

Economic Prosperity

- o The future outlook for our region is closely tied to the availability of a skilled and adaptable workforce and an improved, diversified economic base.
- o Encouraging investment and attraction around supporting our different industries will be important to ensure a resilient economy with a range of local employment options.
- o The creation of innovative and bespoke new business investments and job opportunities will help add depth to our economy.
- o While Council has limited control, it can influence catalytic infrastructure and assist in supporting local businesses.

Developing the Plan

Our Delivery Program and Operational Plan have been directed by the aspirations, knowledge and ideals that were expressed through the consultation with our community for our Community Strategic Plan. Feedback provided from community wide surveys conducted in both 2018 and 2020, where respondents rated the importance and satisfaction of our services and facilities, also contributed to the development of the Delivery Program and Operational Plan. Many consultations have been undertaken through our Have Your Say webpage and other engagement channels. We have also been engaging and informing our community through the State of the Organisation report and our Strategic Improvement Plan to explain the challenges and actions we are urgently undertaking to correct our future.

To develop the Community Strategic Plan and the Delivery Program, several specific community workshops were held throughout February and March 2022. These workshops were run in a collaborative approach between Councillors, Council staff and the community. A total of 124 community members attended these workshops. Held at several localities throughout our Municipality the workshops sought to obtain suggestions, ideas and encourage discussion about key theme areas, including the environment, our community, financial sustainability and our economy.

A survey of the community was also undertaken, where we received a total of 177 responses. This survey sought to obtain further feedback from the community and included questions related to the community strategic plan and also questions related to services and facilities of Council.

A review of Council's current strategies and policies was also undertaken as well as consideration of the regional context in which we operate, including the Illawarra-Shoalhaven Regional Plan.

Further refinements have been made as a result of community feedback during the public exhibition period.

As with all plans, it will continue to improve. The commitment to excellent customer service provision to our community is demonstrated through the number of Strategic Plans to be developed within the period of 22/23. This will enable consistent engagement with our communities to develop plans and measures in greater detail, and establish a strong outcomes framework with measures that are meaningful for our communities.

Our reporting will reflect these measures, and reporting will be delivered in line with IP&R recommendations.

How to Read this Plan

The strategic plan describes the outcomes we want to achieve over the next 10 years and the strategies we will use to achieve them. This plan uses the six pillars from the community vision to guide the outcomes and strategies. The pillars rely on each other for success and should not be considered in isolation. They should be read with the community vision to ensure that the spirit and intent of the vision is captured in every initiative.

Term used in the plan	What this term means
Pillars	The pillars reflect the aspirations of the community; supporting the community vision.
	Our Community Vision and Aspirations have been grouped into six key headings
Outcomes: Where do we want to be?	The outcomes are the goals we aim to achieve and are linked to the focus areas of the vision. The goals and priorities that work together to create the Vision.
	They are numbered as 1.1, 1.2 and so on.
Strategies: How will we get there?	The strategies are how we will achieve the outcomes. They reflect the 2022-2032 strategic plan.
	What are we as a community going to do to achieve the Vision?
	They are numbered as 1.1.1, 1.1.2 and so on.
Our Partners: Who will help to achieve the outcomes?	Who will help us? Council is only one part of the community, and the plan is for all of the community.
Council's role	Our way of identifying if are we responsible to deliver the action, a partner in the delivery, or an advocate / support the aspirations of others
Community Indicators: How will we know when we've arrived?	Lots of things combined tell us we have achieved the vision, it's never just one measure or action that creates it. We will use a baseline of measures from 'where are we now" and how will we know if we have changed or maintained what is important to us. We need to be able to answer questions like "What did we do that made a difference? And was it positive or what we intended? Or did it have unintended consequences that we need to consider?

Pillar 1: We belong and contribute

"We love our community and the things that make it special — its beach environment, built heritage and the green hills that form our backdrop and cushion our communities. We cherish our character villages, recreational and cultural focus and the family, friendships and relationships that make our LGA special. We want and need to invest in these attributes that make our lives richer."

The original inhabitants of the Kiama area were the Wodi Wodi Aboriginal people, and the name Kiama is thought to be from an Aboriginal word meaning 'where the sea makes a noise'. We recognise that the land on which we live has been inhabited and protected by the Wodi Wodi people for thousands of years and while only 1.7% of our community identify as Aboriginal and/or Torres Strait Islander we acknowledge and protect the legacy and the future of this area for our community, whether Indigenous and non-Indigenous. Celebration of Aboriginal heritage and culture is becoming a stronger part of public life, and working towards shared goals with Aboriginal people is a major priority.

Today Kiama Council services a community of approximately 24,000 people and covers an area of 259 square kilometres. It is a place of great natural beauty, populated by relaxed and welcoming communities who love where they live, work, and play. Close-knit social networks can help people make new friends, build new businesses and come together in difficult times. Our residential areas cluster around 2 towns and 6 small village centres that act as focal points for the community. Our community is slowly growing (approx. 1.1%) and there is a strong desire to manage that growth sustainably and thoughtfully.

At the same time, our families are getting smaller and (pre-Covid) there continued to be a movement to the major cities for our young people seeking employment and study opportunities. Our population of working age residents is reducing; however the changes to migration brought about by Covid-19 have not yet been explored sufficiently to measure whether there has been a broadening of opportunities regionally that support work and study without needing to move into capital cities.

Like most regional communities, especially those along the Coast, our population is ageing. Our median age of 47 is significantly higher than the regional median 41.4; and in the capital cities 36.5. Over 50% of our population is not in the paid workforce (this figure includes children, carers, retirees); Currently 32% of our population is over 60; this will increase to 39% by 2041. Many in our community are retired, or semi-retired; regional populations are increasingly seeing younger retirement ages or transitional arrangements from 55 onwards. Social connectedness is a major contributor to well-being and it is important not to lose those connections during life stage changes. Events, activities and facilities work to create community cohesion and shared opportunities to participate in the community in which we live, work or play. Currently Kiama Council supports a range of cultural facilities and celebrations within the community. These act as positive influences within the community and provide opportunities for development, and personal expression; and also contribute to economic development and tourism.

Covid-19 brought a spotlight to the negative impacts of isolation. Our community as a whole fared well because it is a caring community with high levels of social inclusion and well-being. As we see the rise in two-person and sole person households; and an increase in people living with disability and / or undertaking caring roles, the creation of opportunities to participate in our community becomes more important.

Planning for future generations, as well as ensuring the well-being and satisfaction of those who live here now requires us to plan inclusively. Everyone benefits when we plan and act inclusively, feeling safe and connected within our communities.

Council demonstrate their commitment to intergenerational equity and inclusion of all community members in a wide range of ways including:

- Community facilities such as halls are available for hire and use
- Sports grounds and open spaces for active living
- Programs for specific demographics or needs; including youth, seniors living, fitness activities, literacy programs, small business networking, events for locals and for visitors,
- Provision of facilities that consider safer by design and accessibility principles from the design to the deliver stage

What you told us

We love our community and the things that make it special – its beach environment, built heritage and the green hills that form our backdrop and which cushion our communities. We cherish the small-town feel, our character villages, recreational and cultural focus and the family, friendships and relationships that make our LGA special. We want and need to invest in these attributes and the services and facilities that make our lives richer.

We understand that the qualities that we value are qualities that other new and potential residents also value. We do not reject change and growth but we want it managed so that our blend of scenic beauty, heritage and friendliness is not lost for future generations. We balance this concern with awareness of fundamental issues associated with access to housing and especially affordable housing. We will partner with State Agencies, community providers and our fellow local government areas in building long term planning and development solutions suited to our local needs.

Outcomes:

- 1. We want a strong sense of community and belonging, where social and cultural life can flourish; and our families, friends and visitors feel welcome and included.
- 2. We love where we live; we have the services and facilities we need, and the natural beauty of our surroundings enhances our active and healthy lifestyle.
- 3. Our heritage matters; we want to learn, preserve and share both the Aboriginal history of this area, and the history since settlement.

Outcome 1

We want a strong sense of community and belonging, where social and cultural life can flourish; and our families, friends and visitors feel welcome and included

Our Strategy:

1. Provide spaces, services and initiatives that foster a proud, inclusive, and connected community for all. Delivery Program

Code	Description	Responsibility
	Develop an Arts and Culture Strategy that supports Kiama Council to provide a diverse range of cultural and creative activities and events for all interests and people	Director Environmental Services

Pillar 2 We Thrive in a Sustainable Environment

Kiama Municipality is located approximately 120 kilometres south of Sydney, on the South Coast of NSW.

This environment has been protected and managed by the Wodi Wodi people for thousands of years.

The Municipality is bounded by Shellharbour City to the north, the Tasman Sea to the east, Shoalhaven City to the south and Wingecarribee Shire to the west. Established in 1859, Kiama Municipality covers an area of approximately 258 square kilometres; with a focus on conserving our beautiful environment there are 56km2 protected lands including national parks, beaches, rivers and rainforests.

The area is predominately rural with distinct local villages along the coast. The main urban centres are Gerringong, Gerroa, Jamberoo, Kiama and Kiama Downs. Rural land is used mainly for dairy farming and cattle grazing, with some basalt mining.

Major features of the area include Seven Mile Beach National Park, Budderoo National Park, Barren Grounds Nature Reserve, Kiama Blowhole and many beaches. There are many endangered ecological communities within the Kiama Municipality ranging from Bangalay State Forest to Subtropical Rainforest, with Threatened Species like *Zieria granulata*. A total of 919 native flora species and 363 native fauna species have been recorded in the area.

The Kiama local area is host to a number of active Landcare groups, where volunteers play an important role in rehabilitation and revegetation activities.

Council currently supports a range of environmental activities and services that promote cleaner, greener living, such as cycleways, walkways and waste reuse and recycling programs.

There is strong community support for the continuation of an active agricultural industry in the area, to ensure that land is used productively and is not converted to residential development.

Climate Change and natural disasters have significant impacts on our community and the way we live. We are committed to keeping each other safe and doing our part to preserve our environment for future generations.

What you told us

We value the environment in which we live. We wish the environment to be protected and enhanced and we are focused on being responsible in our practices and on our use of and impact on natural resources. We also recognise that we are living in increasingly troubled times, and we want our community and community assets to be insulated as much as is possible against the impact of natural disasters and the consequences of climate change.

Outcomes

- o We protect our people, our place, our flora and fauna through our planning and our actions.
- o Our natural environment of spectacular beaches, rainforests and rolling hills define our place
- o We use our natural resources in efficient and sustainable way; managing, improving or enhancing through protection, restoration and maintenance
- o We work together to understand and respond to the need for growth and change;

We protect our people, our place, our flora and fauna through our planning and our actions.

Our Strategy:

Protect our coast, our estuaries and waterways

Pillar 3 We create a strong and diverse economy

Our Economy is strong, diverse and innovative. An increasing focus on the features of our natural environment and its beauty, sitting alongside excellent infrastructure makes us an ideal destination to visit for a day, a week or explore for a lifetime. This creates a range of expanded or new business opportunities for our rural industries and farms, as well as environmental and cultural opportunities. Our economic indicators clearly demonstrate that our location, our people and our resources create a strong economic foundation with all the attributes needed to adapt and thrive.

From its origins in the dairy and quarrying industries, Kiama now has a more diverse economic base, with tourism being a major contributor. An increasing focus on managing our tourism thoughtfully and diversifying our offerings, is supporting our growth in agribusiness, environmental and cultural tourism, the night-time economy and opportunities for hosting a wide range of extraordinary events. Tourism is a major employer locally with 18.8% of our jobs coming from tourism, accommodation or food related industries.

In 2020 there were approximately 1986 businesses; 1,777 of which are small businesses of 4 or less employees. There are 2 Local Business forums that support our local businesses, creating networking and learning opportunities.

Our largest growing industry is Health care and social assistance accounts for 10.9%, with education and training 8.8% and construction employing 13.9%.

Kiama's central business district hosts commercial and retail outlets as well as service industries. Local shopping strips exist in all the village centres and cater to the daily needs of residents, while speciality shops are enjoyed by both tourists and locals alike. Our retail trade is significant at 10.5%.

According to the 2016 Census results, approximately 42% (9488) of community members are currently in the permanent workforce; 25% work full time and 16.5% work part time. Approximately 13% are employed casually. Additionally, just over 2% of people were seeking employment. 45% of our residents are not in the paid labour force; those who are carers, children, students or retirees all contribute to this figure. The role of unpaid work for those with caring responsibilities, and for the 22% of our community who volunteer must be recognised. It is also important to recognized that there is a change in the way we are employed; greater casualization, and a longer transition to retirement (with some people commencing retirement transitioning at 55, and others staying in our workforce well past 65)

Approximately 60% of our employed residents both live and work within the Kiama LGA; those who commute mainly travel to our surrounding suburbs of Shellharbour, Shoalhaven or Wollongong. Only 2% commute to Sydney.

We have an educated and engaged population, and a high proportion of small business. Compared to regional NSW, we have a relatively higher proportion of our workers employed as managers and professionals.

As a community we continue to explore opportunities for sustainable growth that creates a diverse and innovative economy.

We value the role of tourism as the life blood of our local economy and we accept that our local government area benefits in a very substantial way from the employment generated and the activities and experiences such as restaurant experiences that the visitor economy enables. We also at times struggle with the consequences of this focus on tourism especially but not exclusively the impacts of the massive influx of visitors in holiday periods on parking, service and access. We therefore wish to build on our strengths as a destination of choice and mitigate against its sometimes unintended consequences.

We want our local economy to be vibrant. We are focused on assisting the visitor economy in its managed growth but also want to explore new opportunities suited to our positioning and proximity to large urban centres and industry most especially of Wollongong but also Shellharbour and, increasingly, Nowra to the south. We see particular opportunity in the development of opportunities to build a viable future for our farms and primary industry in general and see great appeal in our green belt as a visitor economy and environmental asset.

We recognise that if we want to build a future for our young people now we need to look at new possibilities and new ways of doing things. In that regard we see great potential in the development of the arts, festivals and cultural activities both for their inherent contribution to community and also for their capacity to reshape and expand the attraction and marketing of our area to visitors and to our young people.

Pillar 4: We are part of a connected and liveable community

We understand that the qualities that we value are qualities that other new and potential residents also value. We do not reject change and growth but we want it managed so that our blend of scenic beauty, heritage and friendliness is not lost for future generations. We balance this concern with awareness of fundamental issues associated with access to housing and especially affordable housing. We will partner with State Agencies, community providers and our fellow local government areas in building long term planning and development solutions suited to our local needs.

We are focused on the building the capacity of the infrastructure within our LGA and more broadly within our region to service the needs of our community. Infrastructure takes many forms and includes power, water and telecommunications. We want to be a "Smart" LGA. We want to promote access to resources that facilitate new and better ways of working and travelling. We also want to promote a safer environment, better facilities for the disabled and enhanced access to public transport.

What you told us

We are focused on the building the capacity of the infrastructure within our LGA and more broadly within our region to service the needs of our community. We have the right infrastructure to meet our needs throughout our lifecycle; and our infrastructure is inclusive and safe. Infrastructure takes many forms and includes power, water and telecommunications. It also includes our parks and playgrounds, our open spaces. We want to be a "Smart" LGA. We want to promote access to resources that facilitate new and better ways of working and travelling. We also want to promote a safer environment, better facilities for the disabled and enhanced access to public transport.

Outcomes:

- 1. We love where we live; our housing reflects our values
- 2. We are well connected within our local community, and to our region.
- 3. Our built environment is safe and inclusive; our infrastructure is well planned and well managed
- 4. Innovation and new technologies and resources that improve environmental and social outcomes are embraced.

Outcome 1 We love where we live our housing reflects our values

Pillar 5 We Expect accountable and transparent leadership; a Council that is financially sustainable

"Finally and importantly, we want our community to be well led. We want and need to be proud of our Council, its strategic directions, its responsible use of resources and its courage in advocating for the future of our cherished community. We want open and accountable public administration in which the voice of the community is sought out, listened to and valued."

Civic Leadership is an important aspect of Local Government. It refers to the way a Council sets community standards and applies good governance.

Our community expects responsible leadership and a Council that acts responsibly, with trust and transparency. Local Government, both Councillors and staff are expected to make decisions in the best interests of our communities. Decisions must be measured against the Social Justice Principles and the Four Pillars of Sustainability. These guide decisions to consider all members of our community equitably, and to protect the interests of our future generations.

As the voice of our local communities, it is important that we engage actively with our community. We aim to actively engage with the local community on relevant issues; articulate how decisions are made; and to ensure that avenues are available for community members to provide input into the decision making process. We are also a conduit to advocate with State and Federal Government.

Kiama Council was established in 1859 and currently consists of nine elected Councillors. These Councillors are elected by the community every four years, with the Mayor being elected every two years by the sitting Council.

Councillors play an integral role in representing the views of their local electorate. It is their role to ensure that the community's priorities are identified and long-term strategies are developed to meet these needs.

Council believes that by pursuing the objectives and strategies contained in the Community Strategic Plan, the community will continue to benefit from a responsive and committed Council that understands local issues. Council believes that Civic Leadership should reflect the community's aspirations of a local government that is transparent, honest, ethical and responsible.

We are committed to maintaining a sound financial position by managing our finances responsibly to ensure long-term sustainability and ensuring that assets are maintained for the enjoyment of current and future generations.

We also recognise our role as a significant employer and purchaser of goods within the local area and strive to foster positive relationships with current and potential local businesses. We also endeavour to promote employment opportunities within Council, including for Aboriginal people and people with a disability. Governance is the making of decisions and the management of the Community's finances and assets

What you told us

Finally and importantly, we want our community to be well led. We want and need to be proud of our Council, its strategic directions, its responsible use of resources and its courage in advocating for the future of our cherished community. We want open and accountable public administration in which the voice of the community is sought out, listened to and valued.

Outcomes:

- o Public funds and assets are managed strategically, transparently and efficiently.
- o Governance is transparent and builds trust.
- o Council has the right structures, technology, processes and procedures to support their role in delivering for the public:

Outcome 1

Public funds and assets are managed strategically, transparently and efficiently.

Our Strategy:

Manage Public Funds in accordance with Financial Management Standards and the Local Government Act

Delivery Program – Activity

Funding our Delivery Program

The business of Council is really quite simple, we provide levels of service and infrastructure in line with the priorities of the community and deliver responsibilities against legislation that ensures community equity, safety and wellbeing.

The financial underpinning of what Council delivers, however, can be quite complex. There are multiple income streams, all supported by different principles and rules aligned to appropriate levels of cost recovery, apportionment and affordability.

"the financial sustainability of local government and their ability to provide essential services and infrastructure to their communities is impacted by barriers such as rate-capping and cost-shifting"

We face a range of costs, many of these increasing at a rate which is far more than the standard Consumer Price Index (CPI). This includes items like construction materials, utilities, insurances, levies paid to the State Government for waste and emergency services, street lighting costs and more.

To offset these, we proactively take steps to restrain costs, increase our grant income, dispose of under utilised assets and use borrowings to fund long lived assets. As we prepare each Delivery Program we review our ten year Long Term Financial Plan, which is a forecasting tool on the costs we will face and the income we will receive, the construction and life cycle management of our asset portfolio and the cost of our workforce to deliver these services. The preparation of a financial forecast enables us to identify an optimistic scenario, conservative scenario and planned scenario.

Rate Peg

The annual percentage increase to Council's total permissible rate yield is determined by the Independent Pricing and Regulatory Tribunal (IPART).

In late 2021, IPART released a sector wide, unadjusted rate peg of 0.7 percent. This percentage increase was significantly less than past years and fell below what Council had anticipated 2.5% increase in its Long Term Financial Plan; an increase consistent with general inflation, and one that the sector would have anticipated as being both appropriate and acceptable to communities. In response, we are appealing and seeking a 2.5% rate increase, however have developed our budgets and service delivery outputs in line with rate pegging... resulting in a net result of less services......

ALGA report that rate-capping results in either 'councils will have to trim back infrastructure spending and service provision. Unintended consequences include excessive cuts in expenditure on infrastructure leading to mounting asset renewal and maintenance backlogs, as well as the potential shift of the cost to the next generation."

Impacts of cost-shifting

This occurs when a State or Federal govt transfers responsibility or withdraws from providing a service to the public. Issues that impacted councils in the early 2000's remain impacting on their financial sustainability today – it is not just increasing community expectations and expansion of council services beyond their traditional roles, but also ageing infrastructure built from the Baby Boom and throughout the 60's and 70's.

Council has worked hard to present a draft budget for 2022/23 based on the 1.6% peg. However, this percentage increase in rate revenue is insufficient to cover cost increases associated with construction materials, maintenance, and the employment of our workforce.

Our Long Term Financial Plan illustrates the impact of the reduced rate increase over the forecast ten year period. While Council will continue to pursue all avenues for reducing expenses and generating additional revenues, modelling indicates the financial challenge facing Council will not be resolved without additional rate revenue. Our accompanying Long Term Financial Plan assumes rate peg increases of 2.5% for 2023/24 and 2024/25, with community consultation required in regard to levels of service and rating to establish an appropriate revenue path, including rate levels, from 2025/26 onward.

Sources of income

Our income streams are largely determined and regulated by the Local Government Act 1993. These include rates, fees and charges for particular services, grants and subsidies from higher levels of government, loans, interest on invested funds, and occasionally the sale of assets or business activities. The income we receive is important in determining our capacity to increase levels of service or provide new services.

Rating

Income from rates provides the largest single portion of our total income, with the amount that the total rates yield of a council can increase by each year set by the Independent Pricing and Regulatory Tribunal (IPART). Calculating rates is a complex process, largely driven by the value of the property and also what it is used for - a residence, a business, a farm or a mine. This means that while the increase set by IPART is applied across the total amount of rates, individual properties may see increases or decreases in rates dependent on the value of their property as compared to others in the rating category. We provide rate subsidies in line with our Hardship Policy.

Fees and Charges

Fees and charges are set on a user pays basis and allow for partial recovery of the cost of providing the service, rather than full recovery. The Revenue Strategy, contained within our Operational Plan, ensures fees and charges do not result in unreasonable cost subsiding by the wider community. If the fee or charge provides additional income, this is used to provide services for the wider community.

Grants and Subsidies

We receive both annual grants, which are reasonably consistent, and discretionary grants, which we pursue for specific projects, from the Federal and State governments. These grants help to fund a range of services and major capital projects, including environmental projects, community service programs, road safety programs, public library operations and road construction and other infrastructure works. While the provision of grants is at the discretion of other levels of government, for us they are a key source of income and we are active in pursuing opportunities to obtain funding to support the delivery of projects. We are hoping to improve our access to and utilisation of grant funds – and are employing a grants officer to support the economic development strategy...

Noteworthy Grants for the 2023 Budget include:

The Financial Assistance Grant for \$1.87 million \$857,000 For Section 94 Contributions \$40,000 for Costal Management Plan \$102,000 for Kiama Library \$56,000 for Road Safety Programs \$237,000 Community Events program (Regional NSW)

Investments

At any point in time we can hold a significant amount of cash received from grant monies, contributions to works paid by developers, and general income from rates, fees and charges. This money is committed to various works and services through our annual budget and development contribution plans, however there can be a period of time between receiving and spending the money. To ensure it is generating income through interest, it is invested for a period of time between collection and expenditure. Income from investments can vary significantly due economic climate, interest rate fluctuations and expenditure against commitments.

Asset Sales

Our significant asset base includes infrastructure, property, plant and equipment. Operational holdings, that is land and buildings, are regularly reviewed to identify opportunities to dispose of assets no longer needed for service delivery. Any asset that is sold generates revenue from the sale and reduces the maintenance cost associated with continued ownership. As recently announced, following a significant analysis of our financial circumstances, including forensic auditing, Council have made the difficult but responsible decision to sell a number of key assets within our asset portfolio.

Budget Summary

Income Statement budget 2023 - Consolidated						
Revenue	2021/22 Budget	2022/23 Budget

Statement of Revenue Policy 2022-23

Income and Expenditure 2022-23

Overview

Council's revenue and accounting policies are kept in accordance with the Australian Accounting Standards Board. Council abides by the:

- Local Government Act (1993)
- Local Government (General Regulation 2005)
- · Local Government Code of Accounting Practice and Financial Reporting.

Income and expenditure estimates 2022-23

Our Delivery Program and Operational Plan include Council's predicted expenses and revenues. Council prepares its budget with the objectives of:

- meeting Council's policies and procedures
- maximising income from all existing sources in line with Council's policies
- · providing works and services at sustainable levels
- · achieving economy of operation
- · achieving further self-funding opportunities where appropriate.

The 2022-23 estimates are prepared as a balanced budget excluding depreciation.

All councils continue to face increasing difficulty in being able to retain the current service levels they provide to the community.

This is due to the combination of a decline in government grants in real terms, state government rate pegging legislation that has seen rating revenue fall below the inflation level for the past decade, cost shifting to local government by other levels of government, and increasing cost of materials and contracts.

We continue to review service levels in line with budget constraints. Council aims to continue to provide a high level of service; however, the above factors may result in reduced service levels in some areas in the future.

Council's Waste Business Unit will continue to operate our waste management services.

Revenue policy for ordinary rates to be levied

Council will continue to levy base charges (introduced in 1994-95) to residential and farmland categories. Council calculates rates by:

rate bill = base rate + (land value x ad valorem amount)

The Business-Ordinary category will once again be totally based on land value.

A maximum pension rebate of \$250 per year (subject to Ministerial approval) will be applied to properties where person(s) meet eligible pensioner criteria.

A special Council rebate of \$25.00 will be applied to properties where person(s) meet eligible pensioner criteria.

Council's rating policy is as follows:

Table based on 2.5% Rate pegging

Table based on 2.3 % Nate pegging

Categorisation of land

In accordance with Section 514 of the Local Government Act 1993 each parcel of land within our municipality is categorised for rating purposes and all categories are now declared as at 30 June 2022.

Valuations | Base date 1/07/19

The rates levied in the 2022-23 year are based on total land values of \$6,563,757,684. The base date is 1 July 2019 and is determined by the Valuer General's Department.

.

Statement of rating categorisation

Residential

Base amount applied to all parcels of land: \$861.77 (49.69%).

Ad valorem rate of 0.001586 cents in the dollar on a rateable value of \$5,434,729,244 including mixed development properties will be applied.

Estimated yield: \$17,132,604.79.

No minimum rates apply.

Rural Residential

Base amount applied to all parcels of land: \$861.77 (25.46%).

An ad valorem rate of 0.001792 cents in the dollar on a rateable value of \$191,433,412 will be applied.

Estimated yield: \$460,249.39.

No minimum rates apply.

Farmland

Base amount applied to all parcels of land: \$861.77 (27.76%).

Ad valorem rate of 0.001165 cents in the dollar on a rateable value of \$460,002,300 will be applied.

Estimated yield: \$741,865.71.

No minimum rates apply.

Business – Commercial/ Industrial

Ad valorem rate of 0.004966 cents in the dollar on a rateable value of \$269,137,548 including mixed development properties will be applied.

Estimated yield: \$1,512,657.41. Minimum rate for properties with a land value under \$173,534.03 is \$861.77.

Business - Ordinary

Ad valorem rate of 0.002707 cents in the dollar only on a rateable value of \$12,662,950 will be applied.

Estimated yield: \$34,278.61

No minimum rates apply.

Interest on rates and charges

Each year the Office of Local Government advises and sets the maximum interest rate that Councils can apply to overdue rates and charges. Council will charge interest on overdue rates and charges, from 1 July 2022 to 30 June 2023 Council will impose a rate of 6.0% accruing daily on rates and charges that remain unpaid after they become due and payable from 1 July 2022 to 30 June 2023, inclusive.

Revenue policy for charges proposed to be charged

Under Section 608 of the Local Government Act 1993, Council may charge and recover an approved fee for its services. Fee for service charges may not be placed on services provided (or proposed to be provided) annually for which Council is authorised or required to charge an annual fee.

Services where an approved fee may be charged include:

- supplying a service, product or commodity
- giving information
- providing a service related to Council's regulatory functions including receiving an application for approval, granting an approval, conducting an inspection and issuing a certificate
- allowing admission to any building or enclosure.

Pricing policy for proposed fees

Council must consider the following when establishing approved fees:

- · the cost of provision of the service
- recommended prices suggested by outside bodies
- · the importance of the service
- · legislation that regulates certain fees
- · Goods and Services Tax legislation

Proposed charges for works on private land

Council may carry out lawful work of any kind on private land, with the agreement of the owner or occupier of that land. Charges for private works are:

External plant hire	Reviewed annually based on a commercial rate of return on capital invested
Additional labour	Actual cost plus 36.9% for overheads
Stores and materials	Actual cost plus 25% for overheads
Administration	10% of the total costs of the works

Stormwater management service charge

The Local Government Act 1993 was amended in 2005 to allow councils to levy a stormwater management service charge (SMSC). This change was made in recognition of councils' needs for sustainable funding to support their key role in stormwater management.

Land within an urban area (a city, town or village) that is in the residential and business categories for rating purposes, except vacant land, will be charged the stormwater management levy. This charge can only be levied when a council provides additional or a higher level of stormwater management service.

There are no pensioner rebates offered for the annual stormwater management services charge.

What is stormwater management?

For the purpose of the annual stormwater management services charge, stormwater management is defined as the management of the quality and quantity of stormwater that flows off a parcel of privately owned, developed urban land.

Stormwater Management Service Charge (SMSC)					
Annual Charge					
Residential property	\$25				
Residential strata units	\$12.50/unit				
Business properties	\$25/350m2 (or part thereof) Capped at \$150				
Business strata lots	\$25/350m2 (or part thereof) minimum charge of \$5.00				

Revenue policy for fees proposed to be levied

Council is authorised under the *Local Government Act 1993* to apply a charge for the various waste services it provides. Council proposes the following charges for 2022-23:

<u>Domestic Waste Management</u> <u>Charge</u>

Council proposes to levy an annual Domestic Waste Management Charge for providing domestic waste management services to properties located in the Municipality's urban areas that are categorised as residential or rural residential premises located along designated waste collection routes.

The Domestic Waste Management Charge is based on the size of the red lid garbage bin selected by the property owner. However, where premises are used as Short Term Rental Accommodation (STRA) the largest red lid garbage bin size (240 litre) service must be provided as a minimum.

A separate Domestic Waste Management Charge will be charged to each property, unit, flat or dwelling within residential properties including those that use shared bins, such as multi-dwelling housing, seniors housing, shop top housing and residential flat building.

Council determines its annual Domestic Waste Management Charge and Rural Waste Management Charge by considering all reasonable costs it expects to incur.

Costs include:

- garbage, recycling, garden and food/garden organics collection (if applicable) and processing fees
- Kerbside Clean-up (if applicable) and Bulky Waste Drop-Off services
- ongoing waste depot rehabilitation works
- future waste transfer and facilities
- · waste disposal costs
- NSW Government's Section 88 Waste Levy charged to Council.

There will be a 1.6% increase to the Kiama Municipality's Domestic Waste Management Charge in 2022-23.

Shellharbour Council's tipping fees are expected to increase 2.01% from \$408 per tonne to \$415 per tonne. These tipping fees include the state government's Section 88 Waste Levy payment of \$147.50 per tonne (paid to the NSW Environmental Protection Authority) and operating costs of \$267.50 per tonne paid to Shellharbour Council.

We estimate 9,700 waste services will be provided to urban premises in 2022-23.

Approximately 200 vacant land properties will be subject to the Vacant Land Waste Charge.

The estimated income from Council's Domestic Waste Management Charges will be approximately \$6,200,000.00.

Urban collection frequency

The type of collection service and frequency for the urban zones will be a fortnightly garbage service, a weekly recycling service and a weekly food/garden organics service. An optional weekly garbage service is available, but is subject to an annual charge and only applies to Short Term Rental Accommodation (STRA).

A Specific Waste Bin Collection Service is available, subject to Council approval, for households that generate excessive quantities of non-recyclable waste as a result of a verified permanent or long-term medical condition. Property owners can apply for this service whereby their existing red lid garbage bin will be serviced weekly at no additional charge.

In the case of multi-unit developments with limited storage space, shared garbage, recycling and food/garden organics bins may be made available by Council. The frequency and collection arrangements may be different.

Where a shared bin arrangement is established, each unit will be rated at the 140 litre Domestic Waste Management Charge, as a minimum.

Our food/garden organics collection service is also available to these types of premises.

Two household bulky waste drop off services will apply to all properties within the urban zones that pay for a domestic waste service. In addition, urban households only, will have access to the User Pays On Call Clean Up Service. Eligible households are required to book through Council's Waste Services to arrange to have up to 1m³ of eligible material collected from the kerbside for a fee of \$85.00. Payment is required at the time of booking.

Short Term Rental Accommodation (STRA)

For premises used as STRA for holiday purposes, the applicable domestic waste management charge is 240 litre red lid garbage and the applicable Domestic Waste Management Charge applies. The annual charge is (plus any administration and bin establishment fees):

- \$818.61 for a fortnightly garbage, weekly recycling and weekly food/garden organics service and two household bulky waste drop-off services or
- \$1,471.78 for a weekly garbage, weekly recycling and weekly food/garden organics service and two household bulky-waste drop-off services.

If the waste generated by the STRA exceeds the capacity and collection frequency of this service, the following options are available:

- Opt for a weekly STRA service
- Order an additional 240 litre red lid garbage bin serviced fortnightly
- Engage a waste contractor to remove excess waste from the property as required.

Urban Area Services					
Service applying to urban collection zones	Annual Charge				
 Fortnightly garbage 240 litre bin Weekly recycling 240 litre bin* Weekly food/garden organics 240 litre bin* Access to User Pays On Call Clean-up Service (trial) Two Household Bulky Waste Drop-off Services 	\$818.61				
 Fortnightly garbage 140 litre bin Weekly recycling 240 litre bin* Weekly food/garden organics 240 litre bin* Access to User Pays On Call Clean-up Service (trial) Two Household Bulky Waste Drop-off Services 	\$611.50				
 Fortnightly garbage 80 litre bin Weekly recycling 240 litre bin* Weekly food/garden organics 240 litre bin* Access to User Pays On Call Clean-up Service (trial) Two Household Bulky Waste Drop-off Services 	\$584.99				

An extra garbage (red lid) collection service will be provided during the Christmas New Year period

Services offered to STRA properties ONLY in urban collection zones	Annual Charge
 Weekly garbage 240 litre bin Weekly recycling 240 litre bin Weekly food/garden organics 240 litre bin Access to User Pays On Call Clean-up Service (trial) Two Household Bulky Waste Drop-off Services 	\$1,471.78

^{*} Subject to application and approval, an 80 litre or 140 litre food/garden organics bin can be provided for multi-unit dwellings, duplexes and for senior citizens if requested. No charges apply for the supply and delivery of these replacement bins, when the exchange of bins has taken place.

Specific waste bin collection charge

(subject to application and approval)

Households may apply for a Specific Waste Bin collection service for certain types of medical conditions such as incontinence and other allowable treatment waste and packaging. The existing garbage bin will be serviced weekly.

Approval is granted for twelve months only, after this time, property owners will need to reapply.

Annual Charge		
80 litre	140 litre	240 litre
\$583.99	\$611.54	\$818.61

- Includes weekly recycling and food/garden organic services applicable to household Waste Zone
- Access to User Pays On-Call Clean-up Service
- Two Household Bulky Waste Drop-off Services

Other domestic waste management charges

Annual Charge	
Vacant Land Waste Charge	\$65.91
Additional recycling 240 litre bin (plus additional bin purchase charge)	\$100.52
Additional food/garden organics 240 litre bin (plus additional bin purchase charge)	\$100.52
Additional garbage bin 240 litre bin (fortnightly service). Must have an existing 240 litre waste service to be eligible (plus additional bin purchase charge). Limit one per household.	\$298.46

Since July 2016, all ten waste zones in the urban area receive the OK Organics Kiama waste service which is the collection of food/garden organics on a weekly basis.

Households have embraced the OK Organics Kiama service and this has resulted in a 40% decrease in waste being sent to landfill based upon previous disposal tonnage data.

The total recycling and resource recovery rate is currently at 75%.

The organics collected is being processed on a contract basis by Soilco Pty Ltd, at a new and modern, state of the art local composting facility.

The compost and recycled organics products produced from this facility comply with the required Australian Standards. This will reduce the amount of waste going to landfill, and disposal costs and will also result in better environmental outcomes.

We acknowledge that certain premises and occupants may not require a large 240 litre food/organics or recycling bin. As a result, upon application and approval, a smaller 80 litre or 140 litre bin can be provided to multiunit dwellings, duplexes and for senior citizens. No charges for the supply and delivery of these replacement bins apply when the exchange of bins has taken place. Note, if this option is selected, there is no further reduction in the Domestic Waste Management Charge. Where a new waste service is requested, the charges for the applicable bins will still apply.

Contamination of bins and inspections

To comply with Council's organics collection and processing contracts, visual bin inspections are conducted at random to assess contamination levels and prohibited materials. If contamination is present it may mean that the organics and recyclable materials cannot be processed and it has to be disposed of at landfill at a significant cost.

The fact sheet 'OK Organics Kiama Bin Contamination' on our website has information regarding prohibited and hazardous materials that cannot be placed in the organics, recycling or garbage bins. Information is also provided on what action will be taken by Council when non-compliance occurs. This includes bins not being collected until the non-compliant material is removed.

Changing bin size

Where a garbage, recycling* or organics* bin is downsized from a 240 litre or 140 litre bin capacity, then no administration charge is applied for the changeover of the bin. The administration charge of \$38.24 (GST included) is charged, however, if the application to downsize either a garbage, recycling or organics bin is less than three months after the initial application.

Where a garbage, recycling or organics bin is increased in size to either a 140 litre or 240 litre capacity, then an administration charge of \$38.24 (GST included) applies, for the changeover of the bin. A second-hand bin may be provided if available (approximately \$20.00) for all replacement bins. If not available, a new bin will be supplied at the appropriate cost. The bins to be replaced will be collected and returned by Council.

* the request to downsize the recycling or organics bins is only available to multi-unit dwelling properties, duplexes and senior citizens.

New developments | Damaged/stolen bins

Separate charges apply for the supply and delivery of new or replacement garbage, recycling, food/garden organics bins to new premises:

Charge	
360 litre bin (if available)	\$127.47
240 litre bin	\$90.36
140 litre bin	\$82.90
80 litre bin	\$76.48

The property owner of a new or existing development is responsible for paying the charges for all new bins, except where a shared bin arrangement is approved. In a

shared bin arrangement, it is the responsibility of the property owner or body corporate to purchase the allocated number of new bins for the development, through Council, prior to service commencement.

Bins, lids or wheels damaged or broken due to normal servicing activities will be replaced (new or used) at no cost. Stolen or vandalised bins will be replaced subject to Council approval, free of charge, otherwise the above charges may apply.

Urban area non-residential properties

Multi-storey tourist accommodation

The following charges will apply to premises that are zoned or defined as multi-storey tourist accommodation.

These charges do not apply for Short Term Rental Accommodation (STRA) premises.

Annual Charge	
Weekly garbage 80 litre bin Fortnightly recycling 240 litre bin* (suitable for a one bedroom apartment/unit)	\$508.47
Weekly garbage 140 litre bin Fortnightly recycling 240 litre bin* (suitable for a two bedroom tourist apartment/ unit)	\$535.11
Weekly garbage 240 litre bin Fortnightly recycling 240 litre bin* (suitable for three bedroom tourist apartment/unit)	\$772.21

^{*} No food/garden organics collection service, access to User Pays On Call clean up service or household bulky-waste drop-off provided. Additional garbage and recycling services can be provided subject to applicable charges.

Shared bin arrangement for multiunit developments

Where a shared bin arrangement is established, each unit will be rated at the 140 litre garbage Domestic Waste Management Charge except where the unit is used as STRA for holiday purposes. Where the unit is used as a STRA the unit owner will be rated, as a minimum the 240 litre garbage (fortnightly service) Domestic Waste Management Charge.

Where a shared bin arrangement has been established, the property owner or body corporate is responsible for purchasing the allocated number of new bins for the development prior to service commencement.

Commercial garbage, recycling and food/garden organics

Annual Charge	
 Weekly garbage 240 litre bin Weekly recycling 240 litre bin Weekly food/garden organics 240 litre bin* 	\$790.71
 Weekly garbage 240 litre bin Fortnightly recycling 240 litre bin Weekly food/garden organics 240 litre bin* 	\$720.24

^{*} The weekly food/garden organics service is only available to childcare centres, pre-schools, churches, neighbourhood and community centres, rural fire and emergency services premises or other similar facilities upon request and approval.

Each additional garbage, recycling or food/ garden organics service 240 litre bin is \$15.03 per service.

Note: If a GST Australian Tax Office ruling applies in the future, GST will be added to the above charges.

Commercial recyclable materials collection (per service)

Paper/cardboard and/or co-mingled recycling (GST inclusive) Cost per service	
1,100 litre container	\$26.00
Glass, aluminium, steel, PET, HDPE, etc (GST inclusive)	
Cost per service	
240 litre bin	\$13.00
360 litre bin (if available)	\$19.00

Food organics (only)

Subject to a service being provided by Council, a food organics (only) collection service may be available to commercial food premises, holiday parks and aged care facilities. The service charge (GST inclusive) applies.

Cost per service (GST inclusive)	
1 x 240 litre bin \$27.56	
3 x 240 litre bins \$55.24	
4 x 240 litre bins \$74.20	
6 x 240 litre bins \$111.20	
Frequency of service is to be determined upon	

Special events and casual hire charges

Waste services may be hired for special events or on a casual basis. Charges (GST inclusive) include bin hire and servicing, delivery, collection and cleaning, tip or processing fees.

Cost per service (GST inclusive)	
240 litre garbage bin	\$24.00
360 litre garbage bin*	\$34.00
240 litre recycling bin	\$24.00
360 litre recycling bin*	\$34.00
240 litre food organics bin*	\$24.00
Delivery and collection costs for 240 or 360 litre bin (per bin)	\$8.00
1100 litre container cardboard or paper or mixed recycling container	\$55.00
Delivery and collection costs for 1100 litre container*	\$55.00
(if delivered with 240 litre bins (per container))	\$33.00
Bin cleaning (per bin)	\$8.00
Container cleaning (per container)	\$20.00

^{*} subject to implementation of OK Organics Kiama service to commercial premises.

Rural Collection Service

Council proposes to levy an annual charge for providing fortnightly garbage and fortnightly recycling collection services to premises in rural areas upon request. This is subject to application and approval.

Annual Charge	
 Fortnightly 240 litre garbage Fortnightly 240 litre recycling Two Household Bulky Waste Drop-off Services 	\$476.14*

^{*} additional charges apply for the purchase of bins if needed.

Additional garbage and recycling service is provided during the Christmas and New Year period.

The following services are <u>not</u> included in rural waste collections:

- Access to User Pays On-Call Clean Up Service
- OK Organics Kiama
- Weekly recycling

Onsite sewage management facilities

Approximately 950 onsite sewage management facilities are located in the Kiama Local Government Area. Under the Local Government Act 1993 these facilities are required to be classified as either high or low risk.

High-risk sites are inspected annually. A charge of \$173.00 per annum applies.

Low-risk sites are inspected a minimum of every four years. An annual charge of \$47.00 (\$188.00 total) applies.

Budget Overview

2020/21 Operational Results

The 2021 financial year was a challenging year for Kiama Municipal Council which included the impacts of COVID-19 and implementation of Technology One ERP modules

The 2021 financial statements are currently being audited. The delay is due to a number of prior year adjustments and the forensic audit highlighting a number of operational issues that still need to be addressed.

2022/23 Operational Budget

The 2022/23 budget has focused on the future financial sustainability and will look to continue to improve the operating performance ratio and will target a minor cash surplus. This cash surplus is principally driven by the sale of Akuna and Irvine Street properties. Key strategic projects that will drive financial sustainability for the 2022/23 budget include the following:

- a review of Council's income generating assets to maximise current opportunities
- Working with external consultants to separate the Financial data for Blue Haven to facilitate Business Unit Reporting and analysis.
- a focus on grant opportunities with a more controlled strategic plan around Council's operational grants to ensure all available opportunities are taken up
- continual review of Council's depreciation Expenditure
- better reporting to Managers, including monthly reporting and the development of dashboards.

Council will remain committed to the principles of financial sustainability and good financial management. This will include long term and whole of life considerations that ensure we endeavour not to increase future costs through delayed asset maintenance or unreasonably transfer costs to future generations. Available funds are a cornerstone of Council's financial sustainability and while usage was appropriate in the short term, the Financial Strategy requires these funds to be reestablished over time to return to our former position to ensure we are prepared for any unplanned events in the future. Council recognises that as a large provider of essential services, leadership and economic impact in the municipality our obligation is to strive to continue to provide our high level of services and works while continuing to improve Council's

The graph below details the operating performance ratio since 2019 and is projecting continual performance improvement into the 2023 budget. In the 2023 budget the \$23m revenue from sale of properties is driving the significant increase in operation performance ratio

Graph1: Operating Performance Ratio

22/23 Budget Process

The 2023 budget process focused on a collaborative approach with managers and team leaders to develop a ground up budget approach. This was done by holding one – to one session with each team leader from January – April 2022. These sessions facilitated the implementation of the new Technology one Enterprise Budgeting module and focused on managers and team leaders being responsible for the creation of their budgets. This greater engagement with staff and Councillors will be more refined into the future with greater reporting options and more accessible data due to the department re-structure of the organisation within Technology One.

2023 Budget Assumptions

The Below table details key assumption and indices used for the 2023 budget

2023 Budget Assumptions	Income
Assumption Category	Indexation
Rate increase	2.50%
Fees and charges	2.86%
Interest rates	1-3%
Labour	3.00%
Superannuation guarantee	10.50%

^{*}Excludes internal revenue and expense transactions

Consolidated Budget Overview

Rates and Annual Charges increase from 2020/21

- o General rates increased by 2.5% (rate pegged 1.6% plus Additional Special Variation)
- o Waste charges increase in service charge of 1.6%

<u>User Charges and Fees</u>

- o Increase of 2.86% based on the Fees and Charges average
- o Interest and Investment and Other Revenues
- o Increase due to the increase in Interest Rates of the last 6 months

Employee Costs

- o 2% increase in wages
- Staff budget is based on actual positions includes current vacancies (with corresponding savings in Contractors)
- o Superannuation increased to by 0.5% to 10.5%

Depreciation and Impairment

o Following revaluation in 2020/21, depreciation expense is higher due to reassessment of remaining useful lives of Bridges and Stormwater infrastructure assets

Blue Haven Overview

The Aged Care facility is running at a \$3.5m loss.

This is partially offset by the profit in the Independent Living Units of \$2.6m.

RACF - Aged Care Facility

- Increase in Operating Grant of \$1.7m due to change in funding model from ACFI to AN-ACC
- o Materials and Services has increased due to medical, food, linen and contractor

ILU - Independent Living Units

- o Deferred Management fee has been maintained at the FY 22 budget amount
- o Maintenance Levy has increased by \$3 per week per unit.

Community Services

o Additional Lifestyle Officer for the Home Care Packages clients.

Interest income 2023

The below table details the effects on Council interest income from 2020 to the projected income in 2023. The forecast for the current rate is that it will increase significantly due to the sale of land income early in the year.

	Interest income					
Year	2023	2022	2021*	2020		
Interest and investment income	741,250	212,549	246,517	460,000		
Result	Budget	Budget	Actual	Actual		

^{*}This figure is contained in the draft financial statements for 2021

Council Loans and Borrowing Cost

There are no plans for Council to enter in any new loans for the 2023 budget year. Council's current loan portfolio includes S\$45 million for Blue Haven Bonaira project. This is an interest only loan until August 2023. The funds from the sale of the independent living units will be used as part payment of the loan principle in 2023.

The table below shows current Council loans, their purpose and borrowing costs associated to each loan.

Council loans	and bo	rrowing cost	s
		Loan	Operational borrowing
Description	Bank	amount	costs
Leisure Centre and road resealing (LIRS LOAN)	NAB	2,553,031	11,407
Road Resealing (LIRS LOAN)	NAB	2,025,000	29,647
Surf Beach Holiday Park Redevelopment	NAB	5,000,000	98,349
Loan infrastructure loan	TCorp	4,000,000	86,166
Blue Haven Bonaira Ioan	TCorp	15,000,000	456,152
Blue Haven Bonaira Ioan	TCorp	15,000,000	456,152
Blue Haven Bonaira Ioan	TCorp	15,000,000	456,152
Total		58,578,031	1,594,024

Council Activities of Functions

As part of Council's annual reporting program and a measure used to calculate the Financial Assistance Grant by the Office of Local Government. Council reports on the below functions and activities. Below is a list of what activities are included in each function and the further two tables outline both the income derived from each function along with the expenditure of Council funds for each function.

Governance	Activities include internal audit. public officer and civic expenses
Administration	Corporate support. engineering and works administration and other support services
Public order and safety	Administration and inspection. fire protection. animal control. beach control. enforcement of local government regulations. emergency services
Health	Administration and inspection Community services and education Childcare. youth services. aged and disabled other community services
Housing and community amenities	Housing, town planning, domestic waste management. other waste management. street cleaning, other sanitation and garbage. urban stormwater drainage. environmental protection. public cemeteries and public conveniences
Recreation and culture	Public libraries. museums. art galleries. community centers. public halls. other cultural services. swimming pools. sporting grounds. parks and gardens. other sport and recreation
Mining, manufacturing and construction	Building Control
Transport and communication	Urban roads. sealed roads. unsealed roads. bridges on urban roads. bridges on sealed roads. footpaths. parking areas. bus shelters and services. street lighting and other transport
Economic affairs	Caravan parks. tourism and area promotion. real estate development and other business undertakings

Appendix: Measuring Progress

Which Plan?	What are we measuring?	How will we measure?	When will we measure?
Community Strategic Plan (CSP) 2022-2032	Progress being made towards achieving the Objectives identified in the <i>Community Strategic Plan</i> . There are a range of stakeholders working towards these Objectives.	We will use a range of statistics as well as results from community surveys and engagement activities. Prior to the next review of the CSP in 2032 we will develop an Outcomes Measurement Framework, including a suite of Community Indicators using data collected by Council, government or community-based agencies which will help us understand how effectively we are contributing to positive change within our community.	We will prepare a report ever four-years at the end of each Council term.
Delivery Program 2022-2026	The <i>outcomes</i> of Council's delivery of activities and services: whether Council is making a positive difference for the community.	We will use a range of measures, including statistics, service reports and targeted satisfaction surveys to measure the community's satisfaction with the services and activities that Council provides.	We will prepare a report every six-months and report to Council.

We will prepare a progress report every six months and report to Council. The **outputs** of An annual report, Council's delivery of We will use a range of key including audited **Operational Plan** services and activities performance indicators (KPI), financial reports, will be with a focus on completion of to monitor whether we prepared at the end of are delivering our activities and services on time 2022-2023 each financial year (and activities as planned and within budget. will include a report on and within budget. the State of the Environment every four years, usually in the year of a Council election).
