

Delivery Program 2022 -2026 and Operational Plan 2023-2024

KIAMA MUNICIPAL COUNCIL
your council, your community

ABN: 22 379 679 108
Address: 11 Manning Street,
Kiama NSW, 2533
Phone: (02) 4232 0444
Email: council@kiama.nsw.gov.au

Acknowledgements

Kiama Municipal Council acknowledges the Wodi Wodi people on Dharawal country as the traditional custodians of the land on which our Municipality is located. We pay our respects to Elders past, present and future. We are committed to honouring Australian Aboriginal and Torres Strait Islander peoples' unique cultural and spiritual relationships to the land, waters and seas and their rich contribution to our community.

Community Vision

We live where the sea has sound, energy and life.

We look to the rolling hills, the jagged coastline can feel the culture and heritage that went before us.

As we grow, we respect what makes our home special, but we move with the times.

We choose our own path, think deeply and allow change.

We are a strong, adventurous, creative and courageous community.

Our way of life supports our economy – global, regional, local, or our own street, we call this place home.

Council's Mission, Values and Principles

Respect

We treat others as we expect to be treated — in a fair and professional manner.

Innovation

We champion change in order to provide superior services to our community.

Integrity

We are open, honest and ethical in our behaviours — at all times.

Teamwork

We are one team – working together with trust and commitment to achieve shared goals.

Excellence

We aspire to be the best — in everything we do.

Purpose

This plan is about our organisation, about the Council that serves our community. This is the second year of implementing the Delivery Program 2022 - 2026 and has been updated to include the operational priorities of Council for the financial year 2023 - 2024. Council continues to be guided by the priorities and vision expressed by the community in the Community Strategic Plan.

"The community members and stakeholders of Kiama LGA ... have called upon the Council to demonstrate long-term commitment to strong governance of the vision. "

Welcome: Our Commitment

The people of Kiama LGA love where they live. The value the connections between people and places and the unique lifestyle that communities have been able to build in this city. They love the distinct characteristics of the towns and villages, the rolling hills and rural landscapes, the ever-changing seas, the migration of the whales and the active lifestyle that comes of landscapes that shape us.

We share what makes here special with family, friends and visitors; delighting in the opportunities that create and connect us. Ours is a destination to delight; an easy and accessible opportunity to visit and enjoy the lifestyle and beautiful environment for a day or a holiday; or to stay and appreciate all of the good things in life, for a lifetime.

We want sustainable and carefully considered growth to ensure we retain what makes here special. As populations grow and change, pressure is placed on our environment and our memories. Defining our essence and refining our strategies to reflect our pathways requires careful consideration and deep engagement; knowledge of what has come before to create our culture and what makes our place special is essential to creating the future we dream of

Our Aboriginal heritage requires further exploration for understanding. The stories need to be told for us to protect the cultural sites of the Wodi Wodi and the Dharawal who were the custodians of this land from time immemorial.

Their stories and connection to land and place, should be shared by all of us. We should make it part of our future shape. Our past, their past, should be the foundation on which the future is built.

We face challenges and opportunities from pressures such as tourism at peak season; an aging population; infrastructure maintenance and management with limited resources; and differing priorities from within and upon our communities. We all want what is best for our region; to cultivate opportunities, to create a future and a proud legacy, to care for our people. We accept the challenges as opportunities to grow and strengthen, to distil the essence of what is important.

These messages are at the heart of the engagement feedback we have heard. We share the care and concern for protecting our natural environment, the desire to leave a legacy for the future that retains what makes this region special and to create a sense of adventure as we seek always to do better and be better, than we were before.

A community vision for our treasured region, the community vision that now guides the work of Kiama Municipal Council.

The process to create Kiama: Strategic Choices for a Sustainable Future 2022 - 2032 took care to ask, engage and research. Council engaged on a wide range of significant issues with deliberation - to ask "what matters to you" through workshops, surveys submissions. We reflected on reports of community satisfaction, explored distilled regional strategies, assessed our role in contributing to state plans and looked at ways we can collaborate to best achieve the vision of our community.

The Delivery Program and Operational Plan 2022 - 2026 was created in response to the priorities of the Community Strategic Plan.

The Kiama Municipal Council Delivery Program and Operational Plan 2022 - 2026 is now in its second year of delivery. This plan reflects the operational priorities of Council for the financial year 2023 - 2024.

Message from the CEO

We are proud to present our revised and updated Delivery Program and Operational Plan (DPOP) 2023-24 to our community.

The Delivery Program is a four-year strategic document, including the programs and services of Council that combine to create the outcomes supporting the vision outlined in our Community Strategic Plan.

We are in year two of the endorsed Delivery Program.

The Operational Plan is an annual program of works. It includes the Capital Works program, the annual budget and the Statement of Revenue Policy. It demonstrates how Council continues to deliver and maintain the infrastructure and services which create a safe and attractive community for people to live, work, stay and play.

An ongoing focus remains: Council is committed to a financially sustainable future and ensuring that we remain a going concern. The draft budget for 2023-24 shows how crucial the sale of Council's assets are, with a deficit of \$11.9 million for the year unless money comes in from Council's property divestment strategy. As a result, a pared down budget for the coming year will see all expenditure for capital works coming from grants or dedicated reserves, and operational efficiencies.

The proposed Capital Works Program 2023-24 can be found on pages 135-137 of this document.

The past year has seen Kiama Council issued with a Performance Improvement Order by the NSW Government, which underlines the seriousness of our financial situation. However, we have also made much progress towards restoring our liquidity, divesting assets, paying off debts and restoring our reserves.

We are looking forward to continuing to deliver for our community, despite some limitations. We will press on with our Capital Works program, continue to work on our finances, to recruit staff to fill gaps in the organisation, and simply get on with the business-as-usual of all Local Governments: providing community services, fixing roads, cleaning toilets, collecting rubbish and facilitating events, activities and beyond.

This year will also see service-level reviews of four significant areas: Waste Services, Holiday Parks, Kiama Leisure Centre and The Pavilion.

We have commenced an organisation restructure, with our executive level management now in place, and recruitment well underway for key managers and staff.

Council will continue to report to the community on a regular basis, so you can expect to hear how things are progressing throughout the year.

Finally, I want to thank my staff for all the hard work they do each day, as we look forward to the implementation of this DPOP for 2023-24.

Kiama Municipality

Past and Present

"We love our community and the things that make it special – its beach environment, built heritage and the green hills that form our backdrop and which cushion our communities."

Where we live

- Years of continuing Aboriginal culture and custodianship: 50 000+
- Land area: 25 766ha
- A bird lovers paradise with water birds, kingfishers, thornbills, wrens, honeyeaters and the brown cuckoo dove, just to name a few.
- Kiama Coastal Walk covers 20km of walking track.
- A diverse range of vegetation communities including eucalyptus forests, rainforests, shrublands, wetlands and grasslands.
- Bombo Headland is one of the most significant geological sites in NSW.
- Proportion of Kiama LGA protected lands: 25%
- Humpback and Southern Right whales migrate from May to November, while the dolphins play all year round.

"We do not reject change and growth, but we want it managed so that our blend of scenic beauty, heritage and friendliness is not lost for future generations."

Where we came from

- People that identify as Aboriginal and/or Torres Strait Islander: 2.3%
- People born in Australia: 81.4%;
- Our largest population born overseas comes from England 5.3% and NZ 1.3%.
- Australian citizens: 92%
- Tourism supports an estimated 658 jobs which is 9.7% of total employment in the LGA.
- Tourism output is estimated at \$111.385M

Kiama Municipality

Past and Present

Our Wellbeing

- SEIFA score 1070 (this is a Socio-Economic Index of area by ABS. This score indicates few households with low incomes, few people with no qualifications and few people in low skilled occupations).

Our Population

- 22,925 people call the Kiama municipality home
- Median population age is 49 years
- Residents that volunteer: 17%.

How we live

- 33% live in two person households; 10% are sole occupiers of dwelling
- Owned outright: 40%
- Purchasing a home (mortgage): 37%
- 17% are in rented dwellings
- 82% live in a separate dwelling; 29% of dwellings have 2 occupants
- 14% of dwellings are medium density; 4% are high density.

Tourism is valued as the lifeblood of our economy ... "we wish to build on our strengths as a destination of choice and mitigate against its sometimes unintended consequences."

How we work

- Total number of businesses: 2,120
- Unemployment rate: 3.5%
- Not in the labour force is the most common group with 7,733 people: 40%
- 28% of those employed are full-time; 20% are part-time.
- Kiama has 6,794 jobs and a thriving economy worth \$2.098 billion annually.

Our place in the region

The development of our Delivery Program 2022-26 and Operational Plan 2023-24 directly responds to our Community Strategic Plan, as well as our broader strategic context (e.g. state regional plans).

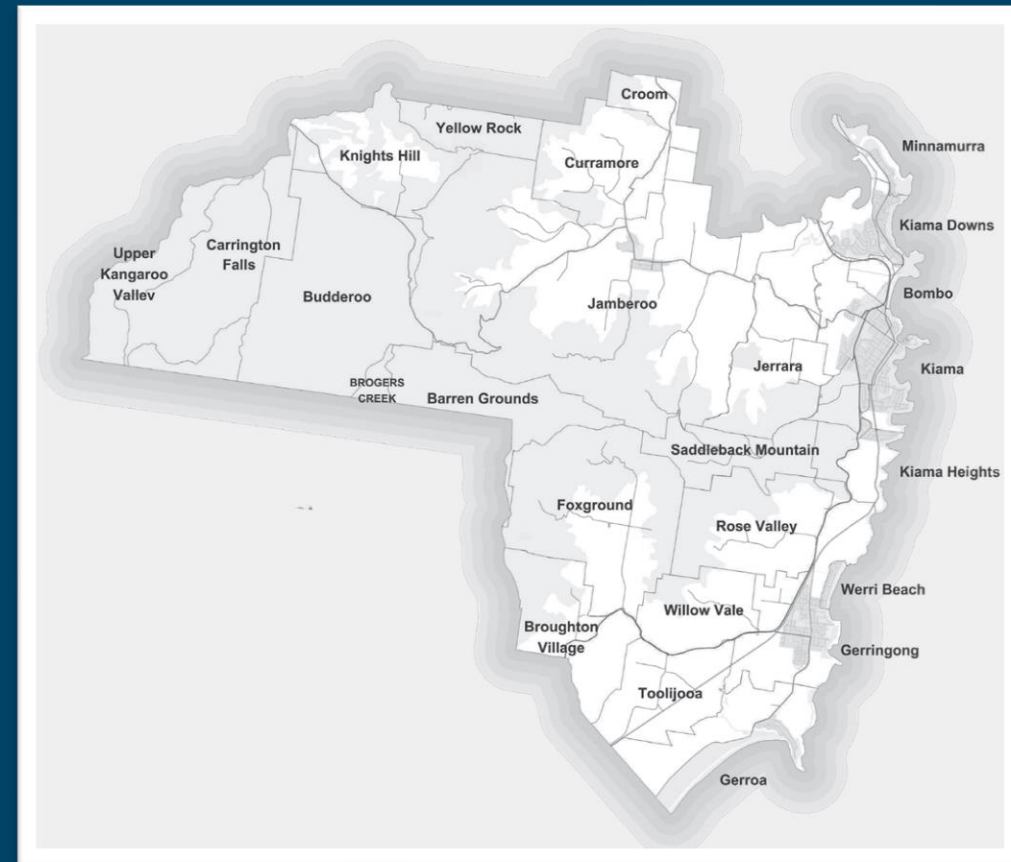

Through our Delivery Program and Operational Plan, we will continue to work proactively with our partners to respond to the evolving strategic context, so we can maximise the future opportunities for Kiama Municipality.

Kiama Municipality is a place of opportunity. We have all of the attributes needed to thrive economically, environmentally, socially and financially.

Enhancing opportunities to thrive are the many other plans and strategies that relate to our region; and we have been careful and considered in our development of strategies and actions to enhance opportunities where they arise.

Some of the regional and state-wide plans that we have considered include:

- the Greater Cities Commission: the creation of a globally competitive city region through strategically bringing together six cities
- the Illawarra-Shoalhaven region.
- NSW Premiers Priorities
- Future Transport Strategy 2056
- NSW State Infrastructure Strategy
- RDA Illawarra Shoalhaven Plan 2041
- Destination 2036
- NSW Regional Economic Development Strategy
- Illawarra Shoalhaven Joint Organisation Strategy
- Local Strategic Planning Statement

Our organisation

Kiama Municipal Council

Our Mayor and Councillors

Kiama Municipal Council is led by our Elected Council, comprised of nine Councillors who are elected every four years through the Local Government elections.

The Council is responsible for electing a Mayor and Deputy Mayor every two years. Our Elected Council plays an important role in representing the community and ensuring that the community's aspirations for our Local Government Area (LGA) are addressed through our Delivery Program and Operational Plan.

Our Elected Council achieves this by providing civic leadership for the community, ensuring the financial sustainability of Council, developing and endorsing Integrated Planning and Reporting documents reviewing Council's performance in an ongoing manner. In the image are our elected representatives; elected in the December 2021 Local Government Elections.

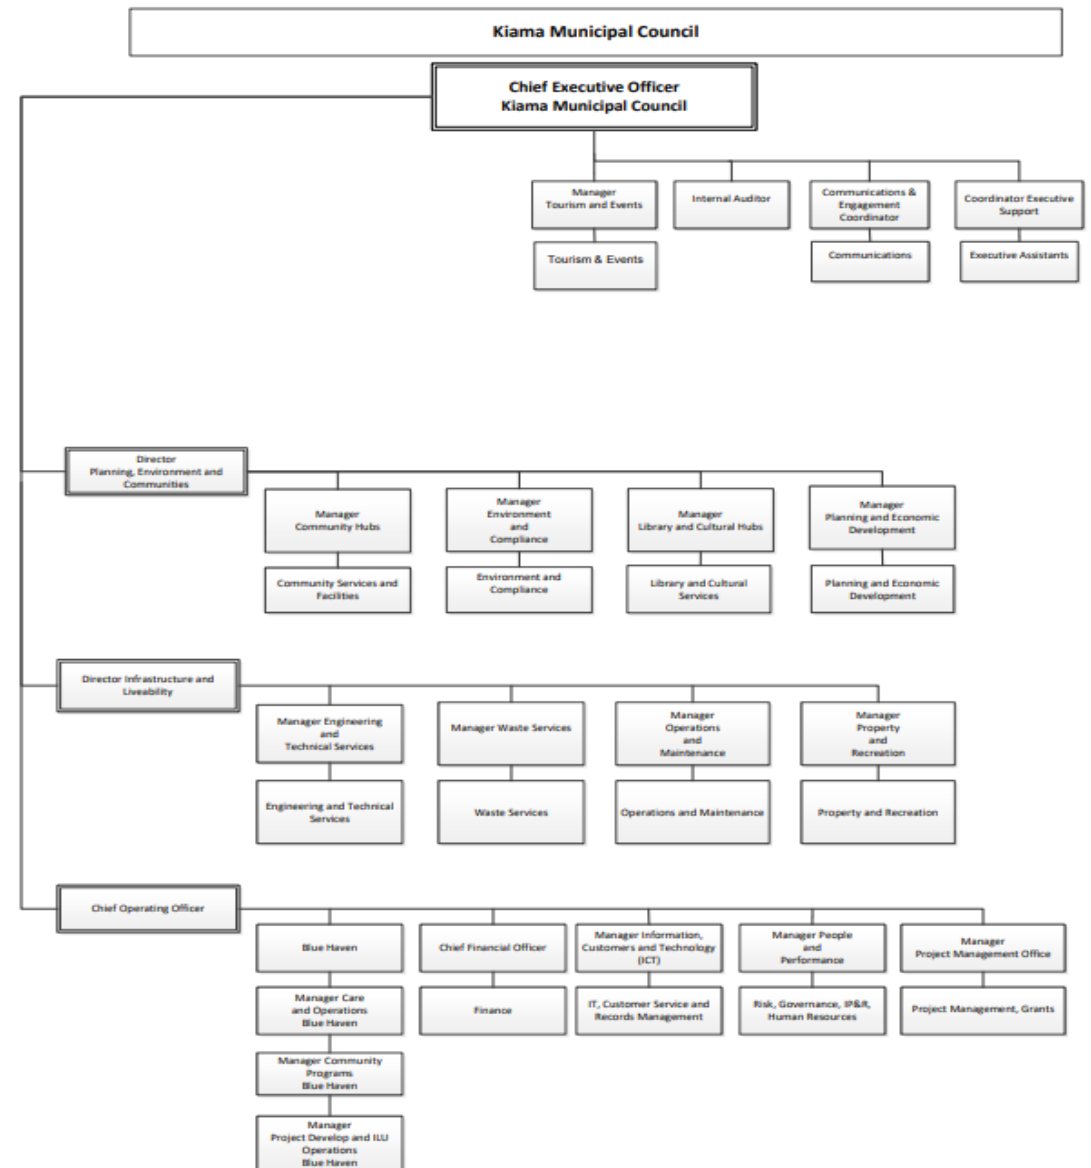

The next Local Government elections are scheduled for September 2024.

Our Executive Leadership Team

Our Executive Leadership Team is responsible for providing strategic, operational cultural leadership to inspire our staff to work together to achieve our delivery Program and Operational Plan.

Our Executive Leadership Team consists of our Chief Executive Officer (CEO), two Directors, Chief Financial Officer (CFO) and a Chief Operating Officer (COO) who lead each division of Council as shown here:

Our strategic approach

The Municipality work is guided by our Planning and Reporting Framework. This framework fosters transparency, accountability and good decision-making by guiding staff in planning and implementing their work and managing and reporting on organisational performance.

Community Vision

The Community Vision – the Community Strategic Plan is the Municipality's highest-level strategic document. It articulates community values about and aspirations for Kiama Municipality now and into the future based on in-depth engagement. The Vision is critical for ensuring that the Council's work aligns with what is important to our community.

Mission

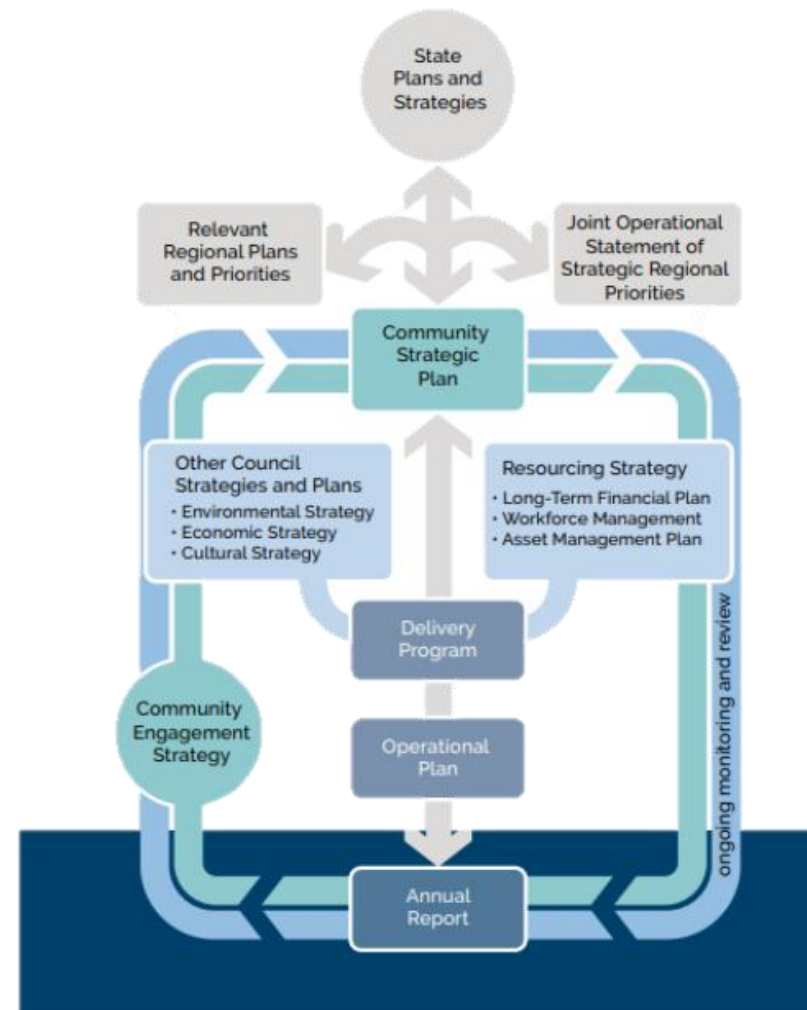

Council's Mission defines a common purpose for all employees at Council. It places the community at the heart of what we do. Our Mission is: Kiama Council will work to create a Municipality that has a healthy, vibrant lifestyle, a beautiful environment and a harmonious, connected and resilient community.

Values

The Values are a set of guiding principles for Kiama Council's organisational culture. They inform how we do our work and interact with the community, customers and stakeholders, providing a framework for behaviours that are expected in delivery of our Mission and the Community Vision.

Kiama Municipal Council

- Values the commitment of the community to our local region.
- Recognises the value of the area's rural and coastal lifestyle.
- Will strive to maintain the natural beauty of the environment.
- Will plan for sustainability.
- Will build on the strengths of the community to create a Municipality that is a vibrant place to live, work and enjoy.

The Integrated Planning and Reporting

All councils in NSW are required to operate within the Integrated Planning and Reporting (IP&R) framework. The IP&R framework guides how each council develops, documents and reports on their strategic plans for their Local Government Area. The IP&R framework reflects relevant legislative requirements under the Local Government Act 1993. The IP&R framework requires each council to develop and implement a suite of planning documents in response to the Community Strategic Plan. Our Delivery Program 2022-26 and Operational Plan 2023-24 has been developed to meet all of the essential elements outlined in the Integrated Planning and Reporting: Guidelines for Local Government in NSW September 2021. (Further details available at <https://www.olg.nsw.gov.au>).

The Community Strategic Plan (CSP) captures and reflects the community's vision and aspirations for Kiama Municipality. This is the 10-year plan that forms a basis for Council to respond to with its planning and delivery.

The Community Engagement Strategy outlines Council's approach to genuine and inclusive engagement to support development of plans, strategies, programs, key activities and service level reviews.

The Delivery Program is the 4-year plan that outlines the specific activities that a council will undertake during its elected term to address the strategies and outcomes outlined in the CSP. It creates a link between the vision of the community and the operational plan of Council.

The Operational Plan then sets out the specific actions that will be undertaken on a yearly basis to achieve the Delivery Program, along with the detailed annual budget.

The Resourcing Strategy shows how Council will leverage its available resources to implement the Delivery Program and Operational Plan. The Resourcing Strategy covers:

- Long Term Financial Plan
- Workforce Management Strategy
- Strategic Asset Management Strategy

Kiama Council presents the Delivery Program and Operational Plan (DPOP) in a combined document to highlight the direct link between the 4-year Principal Activities and the annual actions and budget. 2023-2024 is the second year of the Delivery Program 2022-2026. Included within it are the details of the actions for each strategy and how it will be measured. It also contains Council's detailed Annual Budget and Revenue Policy, including proposed rates, fees charges.

Kiama Council present the Delivery Program and Operational Plan (DPOP) in a combined document to highlight the direct link between the 4-year Principal Activities and the annual actions and budget. 2023-2024 is the second year of the Delivery Program 2022-2026. Included within it are the details of the actions for each strategy and how it will be measured. It also contains Council's detailed Annual Budget and Revenue Policy, including proposed rates, fees charges.

Supporting Documents Council has a suite of strategies and plans that are called supporting documents. These documents provide strategic direction on a wide range of Council's services, facilities assets. Key activities and actions contained within the supporting documents have been prioritised and included in the Delivery Program 2022-2026 and the Operational Plan 2023-2024.

Sustainability and Social Justice

Measures: How do we know we are making a difference?

When we measure success, we consider the four key areas of sustainability

Underpinning it all are the Principles of Social Justice

All plans have been developed considering the four key areas of sustainability: Community, Environment, Economy and Civic Leadership and are based on the Social Justice Principles of:

Equity: There should be fairness in decision-making, prioritising and allocation of resources, particularly for those in need. Everyone should have fair opportunity to participate in the future of the community. The planning process should take particular care to involve and protect the interest of people in vulnerable circumstances.

Access: All people should have fair access to services, resources and opportunities to improve their quality of life.

Participation: Everyone should have the maximum opportunity to genuinely participate in decisions which affect their lives.

Rights: Equal rights should be established and promoted, with opportunities provided for people from diverse linguistic, cultural and religious backgrounds to participate in community life.

	The Plans	Overview	Reporting Timeline
Guiding Principles	Principles of Social Justice	Equity; Access; Participation and Rights for current and future communities	Underpinning all plans and actions

Continuous Improvement and Evaluation	Levels of Service Review	As part of the IP&R framework all services provided by Council are reviewed within the 4-year delivery plan cycle. The review process ensures effective, efficient and sustainable service delivery. Community views and priorities are included through community engagement.	Annual Report Service Review reports to Council

Ongoing monitoring and reporting

We will continually engage and consult with our community and other delivery partners to understand and meet the current and future needs of the Municipality.

Council regularly reports on its performance to ensure the community is informed of Council's operations and to track our progress and achievements in meeting the community's priorities.

Budget statements are reported quarterly to Council.

Every six months progress reports provide an update on the Delivery Program and Operational plan. It will focus on the actual number of services and activities we complete (outputs) and whether we are delivering them as planned and within budget.

Every 12 months Council publishes an Annual Report, focusing on the outcomes of the actions within Delivery Program and Operational Plan. In some areas of Council, additional performance measures may be legislatively required that will also be reported on in the Annual Report.

Every four years we will complete a State of the Municipality Report. This reports the achievements the outgoing Council has made to implement the Community Strategic Plan during their term.

These four types of reports will be available to the community as reports to Council meetings and published on our website.

Our organisational challenges and priorities

Financial sustainability

- Improving our financial outlook with a robust financial strategy and reporting, tailoring services, focusing on essentials and seeking savings where possible. Expenditure will be clear, accountable and well reported.
- The difficult decisions associated with addressing rising operating costs, which are not matched by income, will need to be made.
- Continued delivery of capital works and services will require Council to create and get value from its partnerships and communication with the community.
- Acceptable and agreed levels of service will need to be determined for our assets and services, with the community's involvement in setting these levels critical to the effective use of scarce resources.

Organising our workforce

- Our structure and culture in the workplace need support, clarity and improvement.
- As the largest employer in the region, we need to ensure that our greatest asset - our people - are supported, clear on their roles and responsibilities focused on delivering essential customer services.
- A new salary model and improved performance review system are in the process of being established.
- Working with our consultative committee, unions and workforce we need to realign ourselves and help reposition the organisation's workforce.
- Employ and retain employees with skills, training and support to undertake their public service roles.

Asset management and services

- Improving our asset planning will continue to be key, particularly given the significant assets within our ownership. Council is now the custodian of built assets worth more than \$650 million.
- Our continued investment in renewal and maintenance of our assets will ensure they continue to be managed sustainably for current and future generations.

Economic prosperity

- The future outlook for our region is closely tied to the availability of a skilled and adaptable workforce and an improved, diversified economic base.
- Encouraging investment and attraction around supporting our different industries will be important to ensure a resilient economy with a range of local employment options.
- The creation of innovative and bespoke new business investments and job opportunities will help add depth to our economy.
- While Council has limited control, it can influence catalytic infrastructure and assist in supporting local businesses.

Working in partnership

- Our relationship within the region and with the community needs continual effort and clear vision.
- Our input into regional planning boards and the joint organisation of Councils needs to add value to the positioning of the Kiama LGA.
- Our engagement with our residents, groups and people through community engagement, committees and open and transparent government is crucial.
- Strong collaboration with the Greater Cities Commission.

Five pillars for the future

When creating the framework for our Community Strategic Plan, as well as drawing on our knowledge and experience, we look forward to the future we are building. The Greater Cities Commission is bringing together six cities to create a globally competitive city region. Defining who we are becomes a centrepiece to the global stage; we have generous opportunities and are now big enough to change but still small enough to care.

NSW has already discovered us. Soon the rest of the world will discover what those who live here always knew and now more fully appreciate. The stakes are higher than we can remember and the spotlight is on. As a community, with the courage and support of our Council, we are brave enough to create a plan and follow it through. A plan for a preferred future; deliberate and decisive.

We have the chance now, to create our destiny, to determine what makes here special. "Our land abounds with nature's gifts, of beauty rich and rare"; our planning must be purposeful and embed our vision.

The Community Strategic Plan is a plan that aims to inform and inspire those who don't yet understand. There is an overwhelming sense of excitement for our future we are depending on each other and our leaders to maintain the courage to govern, support and deliver our shared vision.

Throughout this process and beyond, the people of the Kiama Municipality will continue to take interest in the ongoing implementation of this vision, the successes in delivering on our preferred outcomes, the protection of our unique and highly valued environment and lifestyle and the steps taken to maintain our identity.

We

- Belong and contribute.
- Thrive in a sustainable environment.
- Create a strong and diverse economy.
- Are part of a connected and liveable community.
- Expect accountable and transparent leadership; a financially sustainable Council.

How to read this Plan

Term used in the plan	Cascading Code e.g.	What this term means.
Pillars	1	The pillars reflect the aspirations of the community, supporting the Community Vision. Our Community Vision and aspirations have been grouped into five key headings.
Outcomes: Where do we want to be?	1.1	The outcomes are the goals we aim to achieve and are linked to the focus areas of the vision. They are numbered as 1.1, 1.2 and so on.
Strategies: How will we get there?	1.1.1	The strategies are how we will achieve the outcomes. They reflect the 2022-2032 Community Strategic Plan (CSP). They are numbered as 1.1.1, 1.1.2 and so on.
Delivery Plan: 4-year strategy	1.1.1.1	How will Council contribute to delivering the vision of the CSP. They are numbered 1.1.1.1, 1.1.1.2 and so on.
Operational Plan	1.1.1.1.1	What actions are Council doing to contribute to the Delivery Program outcomes. They are numbered 1.1.1.1.1, 1.1.1.1.2 and so on.
Measure		Outputs are mainly used when measuring the Operational Plan. Outcomes are mainly used when measuring the Delivery Program. A combination of information is utilised to demonstrate 'the difference the actions of Council made'.

Pillar 1

COMMUNITY 

Outcome 1.1	We want a strong sense of community and belonging, where social and cultural life can flourish; and our families, friends and visitors feel welcome and included.
Outcome 1.2	We love where we live; we have the services and facilities we need the natural beauty of our surroundings enhances our active and healthy lifestyle.
Outcome 1.3	Our heritage matters: we want to learn, preserve and share both the Aboriginal history of this area the history since settlement.

"We love our community and the things that make it special – its beach environment, built heritage and the green hills that form our backdrop and cushion our communities. We cherish our character villages, recreational and cultural focus and the family, friendships and relationships that make our LGA special. We want and need to invest in these attributes that make our lives richer."

The original inhabitants of the Kiama area were the Wodi Wodi Aboriginal people. The name Kiama is thought to be from an Aboriginal word meaning 'where the sea makes a noise'. We recognise that the land on which we live has been inhabited and protected by the Wodi Wodi people for thousands of years and while only 2.2% of our community identify as Aboriginal and/or Torres Strait Islander we acknowledge and protect the legacy and the future of this area for our community, whether Indigenous or non-Indigenous. Celebration of Aboriginal heritage and culture is becoming a stronger part of public life and working towards shared goals with Aboriginal people is a major priority.

Today Kiama Council services a community of approximately 22,925 people and covers an area of 259 square kilometres. It is a place of great natural beauty, populated by relaxed and welcoming communities who love where they live, work play. Close-knit social networks can help people make new friends, build new businesses and come together in difficult times. Our residential areas cluster around 2 towns and 6 small village centres that act as focal points for the community. Our community is slowly growing (approx. 0.9%) and there is a strong desire to manage that growth sustainably and thoughtfully.

Like most regional communities, especially those along the Coast, our population is ageing. Our median age of 48 is significantly higher than the NSW median age of 38. 16.5% of our population is under the age of 15; with a further 10% between the ages of 15 – 24. Our fastest growing cohort is in the 65 – 69 years group. Currently 36% of our population is over 60; this will increase to 39% by 2041. Our families are getting smaller, with 43% of residents living in two-person and sole person households.

Many in our community are retired, or semi-retired; and like other regional coastal populations we are increasingly seeing younger retirement ages or transitional arrangements from 55 onwards. 60% of our population is not in the paid workforce (this figure includes children under 15, carers, retirees); and 2% unemployed.

Social connectedness is a major contributor to well-being and it is important not to lose those connections during life stage changes. Events, activities and facilities work to create community cohesion and shared opportunities to participate in the community in which we live, work or play.

Currently Kiama Council supports a range of cultural facilities and celebrations within the community. These act as positive influences within the community and provide opportunities for development and personal expression; and also contribute to economic development and tourism.

Planning for future generations, as well as ensuring the well-being and satisfaction of those who live here now requires us to plan inclusively. Everyone benefits when we plan and act inclusively, feeling safe and connected within our communities.

This financial year will see Council continue to deliver a wide range of services and facilities that support community connections, enhance our sense of well-being and enable leisure activities. This year will see a focus on

- enhancing the use of community halls and facilities; as well as exhibition spaces and places
- Exploring ways of including the Uluru Statement from the Heart into our strategic direction, through engaging with First Nations people, to develop a response that can be implemented within Council.
- Engaging with young people, to hear their voices and develop a Youth Engagement Strategy and action plan.
- completing a service level review of the Leisure Centre
- Continue delivery of programs and initiatives to support lifelong learning, including the review of the Library Strategy and delivery of the Action Plan.
- Review and renewal of the Kiama Arts and Culture Strategy
- Implementing the Disability Inclusion Action Plan and priorities

	Code	CSP Strategy
Outcome 1.1	1.1.1	Provide spaces, services and initiatives that foster a proud, inclusive, and connected community for all.
	1.1.2	Support our volunteers and community contributors.
	1.1.3	Connect with each other through participating in local arts, cultural and library activities, and programs.
	1.1.4	Promote our major facilities to attract events and activities.
	1.1.5	In collaboration with our young people, we will develop new, and enhance existing, partnerships and opportunities to expand their opportunities to participate in all aspects of community life.
Outcome 1.2	1.2.1	Provide facilities that enable us to participate in social, cultural, recreational and sports activities, no matter our background, ability or age.
	1.2.2	Take steps to feel safe wherever we are, any time of day or night.
	1.2.3	Look after each other in times of disaster.
	1.2.4	We work together to consider health and well-being holistically.
Outcome 1.3	1.3.1	Recognise and respect our First Nations peoples and their connection with the land and waterways for thousands of years; identify and safeguard areas and items of cultural significance Engage with local and regional First Nations peoples; seek knowledge with intent to learn, share and protect.
	1.3.2	Support and promote local cultural activities.
	1.3.3	Recognise the importance of our heritage buildings and precincts; safeguard areas and items of local cultural and / or heritage significance.

1.1	We want a strong sense of community and belonging, where social and cultural life can flourish; and our families, friends and visitors feel welcome and included.
1.1.1	Provide spaces, services and initiatives that foster a proud, inclusive connected community for all.
1.1.1.1	Review Council's Arts and Cultural Strategy and policy framework and implement priority actions.
1.1.1.2	Partner with the community, other levels of government and key stakeholders to provide support to community and cultural engagement sectors, community groups and organisations.
1.1.1.3	Partner with the community and our stakeholders to develop a Youth Engagement Strategy and Action Plan.
1.1.1.4	Improving the liveability of Kiama for those with diverse backgrounds and abilities.
1.1.1.5	Support micro-businesses, local markets, local and regional events ongoing activities to contribute to a sense of belonging and connectedness.

1.1.1.1 Review Council's Arts and Cultural Strategy and policy framework and implement priority actions.

Pillar 2

Natural Environment 

Outcome 2.1	We protect our people, our place, our flora and fauna through our planning and our actions.
Outcome 2.2	Our natural environment of spectacular beaches, rainforests and rolling hills define our place.
Outcome 2.3	We use our natural resources in efficient and sustainable ways; managing, improving or enhancing through protection, restoration and maintenance.
Outcome 2.4	We work together to understand and respond to the need for growth and change.

Natural Environment

We thrive in a sustainable environment

Kiama Municipality is located approximately 120 kilometres south of Sydney, on the South Coast of NSW. The Municipality is bounded by Shellharbour City to the north, the Tasman Sea to the east, Shoalhaven City to the south and Wingecarribee Shire to the west. Established in 1859, the Kiama Municipality covers an area of approximately 258 square kilometres; with a focus on conserving our beautiful environment, there are 56 square kilometres of protected lands including national parks, beaches, rivers and rainforests.

The area is predominately rural with distinct local villages along the coast. The main urban centres are Kiama, Gerringong, Gerroa, Jamberoo, Kiama Downs and Minnamurra. Rural land is used mainly for dairy farming and cattle grazing, with some basalt mining.

Major features of the area include Seven Mile Beach National Park, Budderoo National Park, Barren Grounds Nature Reserve, Kiama Blowhole, the Minnamurra River and many beaches. There are many endangered ecological communities within the Kiama Municipality ranging from Bangalay State Forest to subtropical rainforest, with threatened species including *Zieria Granulata*. A total of 919 native flora species and 363 native fauna species have been recorded in the area.

The Kiama Municipality is host to several active Landcare groups, where volunteers play an important role in rehabilitation and revegetation activities.

Council currently supports a range of environmental activities and services that promote cleaner, greener living, such as cycleways, walkways waste reuse and recycling programs.

There is strong community support for the continuation of an active agricultural industry in the area, to ensure that land is used productively and is not converted to residential development.

Climate change and natural disasters have significant impacts on our community and the way we live. We are committed to keeping each other safe and doing our part to preserve our environment for future generations.

Priorities

Finalise Council's Coastal Management Plan and Framework.

Establish customer focused Compliance team and policy.

Develop and implement regional Biodiversity Strategy.

Support regional resilience project.

Deliver Annual Implementation plan of Councils Corporate Emissions Strategy.

	Code	CSP Strategy
Outcome 2.1	2.1.1	Protect our coast, our estuaries and waterways.
	2.1.2	Protect our biodiversity, native plants and animals.
	2.1.3	Protect and maintain our natural areas; conserve areas of environmental significance.
Outcome 2.2	2.2.1	Celebrate our natural environment and share the values that protect it with our families, friends and visitors to the region.
	2.2.2	Retain and promote our natural environment and our scenic rural landscapes.
	2.2.3	Develop strategies and plans for our current and future generations.
Outcome 2.3	2.3.1	Responsibly manage resources and waste; Limit the waste we send to landfill.
	2.3.2	Limit our reliance on non-renewable natural resources.
Outcome 2.4	2.4.1	Understand climate risks and our impacts and take action against these.
	2.4.2	Mitigate and adapt to climate change and protect our environment

2.1	We protect our people, our place, our flora and fauna through our planning and our actions.
2.1.1	Protect our coast, our estuaries and waterways.
2.1.1.1	Develop, implement review Coastal Management Programs as required under the NSW Coastal Management Act 2016 and the Coastal Management Manual.

2.1.1.1	Develop, implement review Coastal Management Programs as required under the NSW Coastal Management Act 2016 and the Coastal Management Manual.

Pillar 3

Economy

Outcome

3.1

A strong economy, vibrant local businesses and local economic growth.

Outcome

3.2

An economy that embraces the opportunities of tourism while ensuring that we don't lose our community feel; our tourism development and the visitor economy is well managed.

We create a strong and diverse economy

Our economy is strong, diverse and innovative. An increasing focus on the features of our natural environment and its beauty, sitting alongside excellent infrastructure makes us an ideal destination to visit for a day, a week or explore for a lifetime. This creates a range of expanded or new business opportunities for our rural industries and farms, as well as environmental and cultural opportunities. Our economic indicators clearly demonstrate that our location, our people and our resources create a strong economic foundation with all the attributes needed to adapt and thrive.

From its origins in the dairy and quarrying industries, Kiama now has a more diverse economic base, with tourism being a major contributor. An increasing focus on managing our tourism thoughtfully and diversifying our offerings is supporting our growth in agribusiness, environmental and cultural tourism, the night-time economy and opportunities for hosting a wide range of extraordinary events. Tourism is a major employer locally with 18.8% of our jobs coming from tourism, accommodation or food related industries.

In 2022 there were approximately 2,120 businesses; 1,184 of which are small businesses of four or less employees. There are two local business forums that support our local businesses, creating networking and learning opportunities.

The construction industry sector makes the greatest contribution to economic output in the region, at \$549.4M and 16.3% of all jobs.

The accommodation and food services industry sector are the region's largest employer, with 1,105 jobs. Our health care and social assistance industry is our next largest job creator, with 852 jobs.

Kiama's central business district hosts commercial and retail outlets as well as service industries. Local shopping strips exist in most of the village centres and cater to the daily needs of residents, while speciality shops are enjoyed by both tourists and locals alike. Our retail trade is significant making up 9.5%.

9,269 community members are currently in the permanent workforce; 28% work full time and 20% work part time. Nearly 2% of people were seeking employment. 40% of our residents (over the age of 15) are not in the paid labour force; those who are carers, students or retirees all contribute to this figure. The role of unpaid work for those with caring responsibilities, and for the 17% of our community who volunteer must be recognised. It is also important to recognise that there is a change in the way we are employed; there is greater casualisation, and a longer transition to retirement, with some people commencing retirement transitioning at 55, and others staying in our workforce well past 65.

We have an educated and engaged population, and a high proportion of small business. Compared to regional NSW, we have a relatively higher proportion of our workers employed as managers and professionals.

We value the role of tourism as the life blood of our local economy and we accept that our local government area benefits in a very substantial way from the employment generated and the activities and experiences enabled by the visitor economy. We want our local economy to be vibrant. We are focused on assisting the visitor economy in its managed growth but also want to explore new opportunities suited to our position and proximity to large urban centres and industry, particularly Wollongong but also Shellharbour to our north and, increasingly, Nowra to the south.

As a community we continue to explore opportunities for sustainable growth that create a diverse and innovative economy. We see particular opportunity in the development of our farms, agribusinesses, eco-tourism, agritourism and primary industry in general. We also see great appeal in our green belt as a visitor economy and environmental asset. We are working closely with the Greater Cities Commission to create a regional plan that creates a future for residents, visitors and businesses alike.

Priorities

Prepare an Economic Development Study.

Employment Lands, Rural Lands and Agricultural Lands Strategy

Tourism and Events Strategic Plan implementation.

Service review of the Pavilion, Holiday Parks, Leisure Centre and Waste Services.

	Code	CSP Strategies
Outcome 3.1	3.1.1	Help our local businesses grow strong.
	3.1.2	Support local start-ups, entrepreneurs and new partnerships.

Pillar 4

Built Environment

Outcome 4.1	We love where we live; our housing reflects our values.
Outcome 4.2	We are well connected within our local community, and to our region.
Outcome 4.3	Our built environment is safe and inclusive; our infrastructure is well planned and well managed.
Outcome 4.4	Innovation and new technologies and resources that improve environmental and social outcomes are embraced.

Built Environment

We are part of a connected and liveable community

We understand that the qualities we value are qualities that other new and potential residents also value. We do not reject change and growth, but we want it managed so that our blend of scenic beauty, heritage and friendliness is not lost for future generations.

We balance this concern with an awareness of fundamental issues associated with access to housing and especially affordable housing. We will partner with state agencies, community providers and our fellow local government areas in building long term planning and development solutions suited to our local needs.

We are focused on building the capacity of the infrastructure within our LGA and more broadly within our region to service the needs of our community. Infrastructure takes many forms and includes power, water and telecommunications.

We want to be a "Smart" LGA. We want to promote access to resources that facilitate new and better ways of working and travelling. We want to promote safe, inclusive, accessible environments for people of all abilities; and enhance access to public transport.

Priorities

Delivery of Strategic Planning Works Program

Finalise Property Strategy

Blue Haven Terralong - – decommissioning and dilapidation assessments and reports

Finalise asset revaluation processes and review asset utilisation

Deliver planned capital works through grant funding

- Re-opening Jamberoo Mountain Rd
- Re-opening Wallaby Rd
- Joyce Wheatley Community Centre refurbishment
- Jamberoo Valley cycleway construction
- Coastal Walk Business case
- Various holiday park cabin upgrades to support tourism & achieve compliance
- Implementing open space priority works: Hindmarsh Park, Gerry Emery Res/Athol Noble Oval, Gainsborough Oval drainage upgrades, Jamberoo sporting precinct lighting upgrade

Maintaining our existing assets and servicing the community: footpath and road repairs, slashing reserves, emptying public bins

	Code	CSP Strategy
Outcome 4.1	4.1.1	Collaborate and partner through ISJO to develop a regional response to supply of affordable housing.
	4.1.2	Facilitate development that is respectful of the local characteristics of the Municipality.
	4.1.3	Manage growth sustainably and thoughtfully.
Outcome 4.2	4.2.1	Retain and promote our unique rural landscape, farms and food markets.
	4.2.2	Manage landuse planning to retain distinct towns and villages.
Outcome 4.3	4.3.1	Create a regional network of interconnected roads, shared pathways and cycleways to maximise access to key destinations and facilities.
	4.3.2	Actively plan how we travel and create safe travel routes whether we are walking, cycling, driving or accessing public transport.
Outcome 4.4	4.4.1	Support education, training and different partnerships that support learning and sharing new information and ways of doing.

Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.2.2.2.1	Deliver the Development Assessment Reform Program and Implement required actions to meet legislation, best practice and strive to meet customer service targets and policy.	Development Assessment Reform Program actions implemented.	Development Applications processed consistent with Development Assessment Process Policy. Processing timeframes reduced.	Manager Planning & Economic Development
4.2.2.2.2	Manage development assessment processes in accordance with state government best practice guidelines.	Information available on DA's available digitally in line with best practice guidelines.	Requests for Additional Information, Assessment Reports, Notices of Determination and Stamped Plans to be made publicly available on Council's DA Tracker.	Manager Planning & Economic Development
4.2.2.2.3	Continue to review and enhance Council's Development Assessment templates and work practices reflect the adopted Development Assessment Process Policy, the NSW Government's Development Assessment Best Practice Guide and current legislation.	Development Assessment Process Policy, the NSW Government's Development Assessment Best Practice Guide and current legislation are consistently applied.	All Development Assessment templates and practices to be continually monitored to ensure consistency with Policy and best practice requirements.	Manager Planning & Economic Development
4.2.2.2.4	Assess Development Applications in accordance with adopted timeframes and targets.	Development Applications assessed in accordance with adopted timeframes and targets.	50% processed within 90 days	Manager Planning & Economic Development
4.2.2.2.5	Undertake building inspections as principal certifying authority.	Building inspections as principal certifying authority.	100% compliance, timely and number	Manager Planning & Economic Development
4.2.2.2.6	Process complying development, occupation and construction certificates within legislative timeframes.	Complying development, occupation and construction certificates processed within legislative timeframes.	100% completed within 10 days how many, time.	Manager Planning & Economic Development

4.2.2.2 con't	Council meets the legislative requirements for Planning and Assessment			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.2.2.2.7	Inspect and issue approval for caravan parks to operate as required by the Local Government Act.	Compliance program implemented as required by the Environmental Planning and Assessment Regulation.	Create a register and implement annual inspections.	Manager Planning & Economic Development
4.2.2.2.8	Make timely decisions and submissions regarding proponent-led planning proposals.	Timely decisions and submissions made regarding proponent-led planning proposals.	All proponent-led planning proposals are submitted for a Gateway determination within 90 days of Council indicating its support.	Manager Planning & Economic Development
4.2.2.2.9	Make a Local Environmental Plan, which has been delegated to Council, in the timeframes specified in a Gateway Determination.	LEP developed in accordance with Gateway Determination timeframes.	All proponent-led planning proposal are submitted for a Gateway determination within 90 days of Council indicating its support.	Manager Planning & Economic Development

4.3	Our built environment is safe and inclusive; our infrastructure is well planned and well managed.
4.3.1	Create a regional network of interconnected roads, shared pathways and cycleways to maximise access to key destinations and facilities.

4.3.1	Create a regional network of interconnected roads, shared pathways and cycleways to maximise access to key destinations and facilities.
4.3.1.1	Manage recreation and open space infrastructure to cater for current and future generations.
4.3.1.2	Implement maintenance and capital renewal and improvement programs for Council's built assets and infrastructure.
4.3.1.3	Develop Cemeteries Plan to guide future development needs and opportunities.
4.3.1.4	Remain engaged with Federal, State and Regional Planning.
4.3.1.5	Provide timely and accurate planning advice.

4.3.1.1	Manage recreation and open space infrastructure to cater for current and future generations			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.1.1.1	Identify priorities within the Open Space and Recreation Strategy for capital works program.	Enable staged delivery of priority actions in future works programmes.	Priority actions incorporated into Operational and Capital Works programs for staged delivery as resources allow.	Manager Engineering & Technical Services
4.3.1.1.2	Maintain currency of information about the accessibility of Council's public toilets, on the National Public Toilets Register.	Current information about accessible toilets available in LGA is available to the public.	Data on updates provided to National Public Toilet Register.	Manager Engineering & Technical Services
4.3.1.1.3	Improve accessibility of recreational facilities including wheelchair access to seating, shaded areas, outdoor exercise and play equipment.	Incorporate accessible features into planned new or upgraded facilities under the Capital Works Program.	Where feasible, Accessible Standards achieved for new or upgraded facilities.	Manager Engineering & Technical Services

4.3.1.2	Implement maintenance and capital renewal and improvement programs for Council's built assets and infrastructure			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.1.2.1	Deliver the approved recreation and open space programs to meet community needs.	Percentage of Council approved program completed on time, within approved scope, within budget and to agreed standard.	100% completion of approved recreation and open space programs.	Manager Operations & Maintenance
4.3.1.2.2	Deliver community building asset maintenance and capital programs.	Percentage of Council approved program completed on time, within approved scope, within budget and to agreed standard.	100% completion of approved community building asset maintenance and capital programs.	Manager Operations & Maintenance
4.3.1.2.3	Deliver stormwater asset maintenance and capital programs.	Percentage of Council approved program completed on time, within approved scope, within budget and to agreed standard.	100% completion of approved stormwater asset maintenance and capital programs.	Manager Operations & Maintenance

4.3.1.3	Develop Cemeteries Plan to guide future development needs and opportunities			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.1.3.1	Manage and maintain the three operating cemeteries.	Three operating cemeteries managed and maintained.	100% completion of approved maintenance programs.	Director Infrastructure & Liveability

4.3.1.4	Remain engaged with Federal, State and Regional Planning			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.1.4.1	Attend, participate in and engage with state government planning reforms, workshops, reference groups and planning processes that relate to Kiama LGA and the region, particularly with the Great Cities Committee.	Adopted advocacy items pursued as opportunities allow.	Adopted advocacy items pursued including submissions for State and Federal consultation or engagement programmes.	Manager Planning & Economic Development

4.3.1.5	Provide timely and accurate planning advice			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.1.5.1	Ensure Council's spatial planning data is accurate and current.	Priority spatial data is accurate and current.	Develop an annual spatial planning data review program and action annually the priorities of the program.	Manager Planning & Economic Development
4.3.1.5.2	Issue Planning Certificates within required timeframes and targets.	Planning Certificates within required timeframes and targets.	90% of Planning Certificates issued within three business days	Manager Planning & Economic Development
4.3.1.5.3	Provide timely, informative useful information to customers about the DA process and associated plans to support community understanding and engagement.	Council's website provides timely, informative useful information to customers and reflects the NSW Government's Development Assessment Best Practice.	Ensure Council's website reflects the NSW Government's Development Assessment Best Practice.	Manager Planning & Economic Development

4.3	We are well connected within our local community, and to our region
4.3.2	Actively plan how we travel and create safe travel routes whether we are walking, cycling, driving or accessing public transport.
4.3.2.1	Implement footpaths and cycleways program
4.3.2.2	Implement road safety and traffic management programs and responsibilities
4.3.2.3	Implement the requirements of the Roads Transport Act, Impounding Act, Crown Lands Act and Road Rules
4.3.2.4	Plan and manage road, drainage other infrastructure through the Asset Management Plans
4.3.2.5	Deliver major capital works and projects utilising external funding opportunities.

4.3.2.1	Implement footpaths and cycleways program			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.2.1.1	Implement footpath and cycleway asset maintenance and capital programs.	Percentage of Council approved program completed on time, within approved scope, within budget and to agreed standard.	100% completion of approved footpath and cycleway asset maintenance and capital programs.	Manager Operations & Maintenance
4.3.2.1.2	Review and extend the footpath and cycleway renewal and upgrade schedule.	Revised footpath and cycleway renewal and upgrade program.	Works program developed and published.	Manager Operations & Maintenance
4.3.2.1.3	Apply for appropriate grants to fund improvements to the footpath and cycleway networks with less impact on Council's budget capacity.	Apply for suitable and appropriate grants.	Grants applied for.	Manager Operations & Maintenance

4.3.2.2	Implement road safety and traffic management programs and responsibilities			
Action Code	Action	Annual Outcome	Annual Measure	Responsible
4.3.2.2.1	Manage Roads Act permits to ensure safety standards maintained.	Roads Act permits managed to ensure safety standards maintained.	Roads Act inspections carried out within 48 hours.	Manager Engineering & Technical Services

Pillar 5

Civic Leadership

Outcome 5.1	Public funds and assets are managed strategically, transparently, and efficiently
Outcome 5.2	Governance is transparent and builds trust.
Outcome 5.3	Council has the right structures, technology, processes, and procedures to support their role in delivering for the public.

We expect accountable and transparent leadership; a financially sustainable Council

Civic Leadership is an important aspect of local government. It refers to the way a Council sets community standards and applies good governance.

Our community expects responsible leadership and a Council that acts responsibly, with trust and transparency. Governance is the making of decisions and the management of the community's finances and assets. Local government, both Councillors and staff, are expected to make decisions in the best interests of our communities. Decisions must be measured against the Social Justice Principles and the Four Pillars of Sustainability (see pages 16-17). These guide decisions to consider all members of our community equitably, and to protect the interests of our future generations.

As the voice of our local communities, it is important that we engage actively. We aim to engage with the local community on relevant issues to our role as a Council and local government; articulate how decisions are made; and to create avenues for community members to provide input into the decision-making process. We are also a conduit to advocate with State and Federal Governments on behalf of our community.

Kiama Council was established in 1859 and currently consists of nine elected Councillors. These Councillors are elected by the community every four years, with the Mayor being elected every two years by the sitting Council. Councillors play an integral role in representing the views of their local electorate. It is their role to ensure that the community's priorities are identified, and long-term strategies are developed to meet these needs.

Civic Leadership

We are committed to maintaining a sound financial position by managing our finances responsibly to ensure long-term sustainability and ensuring that assets are maintained for the enjoyment of current and future generations.

Priorities - Council as an ongoing concern

Finalise Performance Improvement Orders (PIO) and implement ongoing improvements.

Implement Strategic Improvement Plan 2 program of improvement.

Deliver actions from the Financial Sustainability Strategy.

Progress Blue Haven Divestment Strategy.

Improve Strategic Asset Management for lifecycle management.

Develop and deliver overarching Divestment Strategy.

Continue Organisational Restructure and salary review process to support an effective workforce.

Undertake Service Reviews on Pavilion, Holiday Parks, Leisure Centre and Waste Services.

	Code	CSP Strategy
Outcome 5.1	5.1.1	Public funds are managed in accordance with Financial Management Standards and the Local Government Act
	5.1.2	Financial reporting is accurate, relevant and timely; to support decision makers and the community to understand how public funds and assets are managed.
	5.1.3	Assets are managed to understand the relevance, importance and lifecycle needs involved in the provision of infrastructure.
	5.1.4	Commercial investments are managed to maximise their value; and in accordance with legislative obligations.
	5.1.5	Council delivers the functions of local government sustainably and in accordance with community expectations. All services and functions delivered by Council will be reviewed in accordance with IP&R requirements within the 4-year cycle of council election.
Outcome 5.2	5.2.1	Build strong relationships and ensure our partners and community share the responsibilities and benefits of putting plans into practice.
	5.2.2	Communicate openly and honestly with the community to build a relationship based on transparency, understanding, trust and respect.
	5.2.3	Engage with the community in meaningful dialogue and demonstrate how community participation is being used to inform decisions.
	5.2.4	Develop an Outcomes Measurement Framework to meaningfully measure how the actions and strategies of the CSP and other documents impact on the delivery of the community vision.
Outcome 5.3	5.3.1	Council will build organisational capabilities and capacity deliver excellent customer service.
	5.3.2	Council will deliver the actions outlined in its 2022 "State of the Organisation" report and the Strategic Improvement Plan.
	5.3.3	A customer centric Information Management & Technology (IM&T) Strategy will be developed to build the capacity and capability of Council.

* note: Due to repetition in outcomes within the Community Strategic Plan (CSP) the outcomes 5.3.1 (council will ensure financial management is accurate, measurable & timely) & 5.3.2 (Council will seek adequate resources to ensure financial management is undertaken in accordance with relevant legislation) have been included in the delivery and operational actions attributed to Outcome 5.1 and deleted from Outcome 5.3.

5.1	Public funds and assets are managed strategically, transparently, and efficiently
5.1.1	Public funds are managed in accordance with Financial Management Standards and the Local Government Act.
5.1.1.1	Improved financial reporting and legislative compliance through reporting, scrutiny oversight processes
5.1.1.2	Maintain compliance with the Office of Local Government risk management and internal audit framework, including ARIC and internal audit operation in accordance with legislation

5.3.3.1.5	Develop and implement an action plan with priority outcomes to deliver the IM&T Strategy.	Priority actions of IM&T Strategy delivered.	Action Plan developed Priorities identified % actions undertaken	Manager Information Management & Technology

Funding our Delivery Program

The business of Council providing levels of service and infrastructure in line with the priorities of the community and deliver responsibilities against legislation that ensures community equity, safety and wellbeing.

The financial underpinning of what Council delivers, however, can be quite complex. There are multiple income streams, all supported by different principles and rules aligned to appropriate levels of cost recovery, apportionment, and affordability.

"the financial sustainability of local government and their ability to provide essential services and infrastructure to their communities is impacted by barriers such as rate-capping and cost-shifting"

We face a range of costs, many of these increasing at a rate which is far more than the standard Consumer Price Index (CPI). This includes items like construction materials, utilities, insurances, levies paid to the State Government for waste and emergency services, street lighting costs and more.

To offset these, we proactively take steps to restrain costs, increase our grant income, dispose of underutilised assets and use borrowings to fund long lived assets. As we prepare each Delivery Program we review our ten year Long Term Financial Plan, which is a forecasting tool on the costs we will face and the income we will receive, the construction and life cycle management of our asset portfolio and the cost of our workforce to deliver these services. The preparation of a financial forecast enables us to identify an optimistic scenario, conservative scenario and planned scenario.

Sources of income

Our income streams are largely determined and regulated by the Local Government Act 1993. These include rates, fees and charges for particular services, grants and subsidies from higher levels of government, loans, interest on invested funds, and occasionally the sale of assets or business activities. The income we receive is important in determining our capacity to increase levels of service or provide new services.

Rating

Income from rates provides the largest single portion of our total income, with the amount that the total rates yield of a council can increase by each year set by the Independent Pricing and Regulatory Tribunal (IPART). Calculating rates is a complex process, largely driven by the value of the property and also what it is used for - a residence, a business, a farm or a mine. This means that while the increase set by the IPART is applied across the total amount of rates, individual properties may see increases or decreases in rates dependent on the value of their property as compared to others in the rating category. We provide rate subsidies in line with our Hardship Policy.

Rate pegging restrains the Council's ability to align rating revenue with the increased cost of providing services. For example, in developing the Long Term Financial Plan, the Council has been advised by IPART that the rate peg for 2023/24 will be 4.2%, while during the same period of time, the CPI rose by 7%.

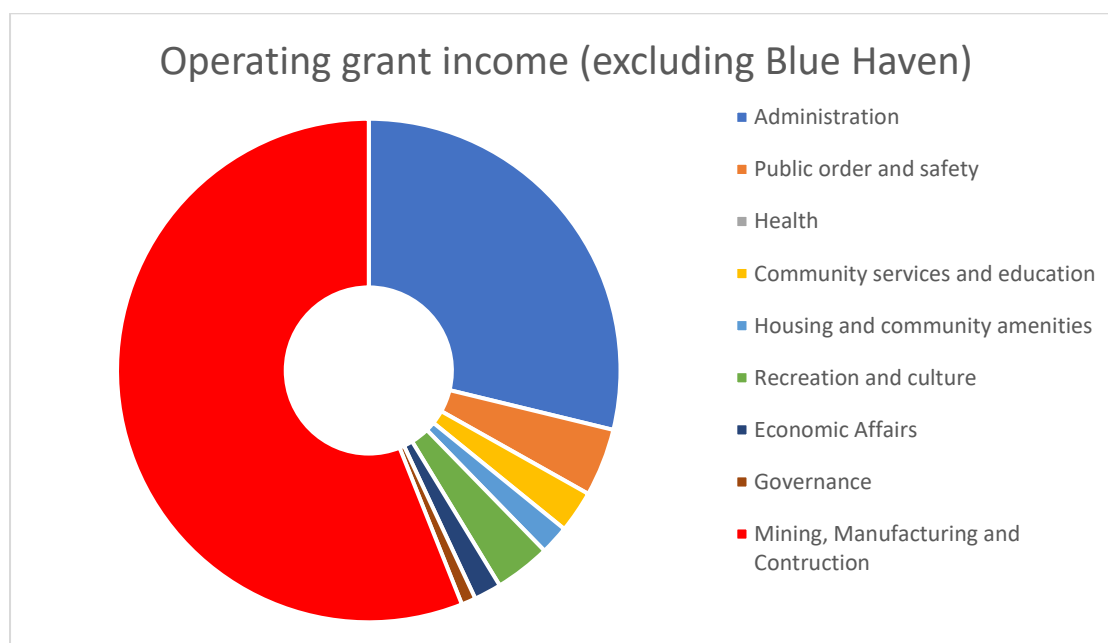

ALGA report that rate-capping results in either 'councils will have to trim back infrastructure spending and service provision. Unintended consequences include excessive cuts in expenditure on infrastructure leading to mounting asset renewal and maintenance backlogs, as well as the potential shift of the cost to the next generation.'

Fees and Charges

Fees and charges are set on a user pays basis and allow for partial recovery of the cost of providing the service, rather than full recovery. The Revenue Strategy, contained within our Operational Plan, ensures fees and charges do not result in unreasonable cost subsidising by the wider community. If the fee or charge provides additional income, this is used to provide services for the wider community.

Grants and Subsidies

We receive both annual grants, which are reasonably consistent, and discretionary grants, which we pursue for specific projects, from the Federal and State governments. These grants help to fund a range of services and major capital projects, including environmental projects, community service programs, road safety programs, public library operations and road construction and other infrastructure works. While the provision of grants is at the discretion of other levels of government, for us they are a key source of income and we are active in pursuing opportunities to obtain funding to support the delivery of projects. The 2023/24 Budget includes \$11.4M of capital grants and \$15.8M of operating grants.

- Operating grants income of approximately \$3,139,639 excl Blue Haven.

Some of the noteworthy Grants for the 2024 Budget include:

\$2M NSW Severe Weather & Flooding events

\$83K Crown Land Flood Recovery Program

\$92K Fixing Local Roads Pothole Repairs

\$1M Stronger Country Communities fund for sporting infrastructure

Investments

At any point in time we can hold a significant amount of cash received from grant monies, contributions to works paid by developers, and general income from rates, fees and charges. This money is committed to various works and services through our annual budget and development contribution plans, however there can be a period of time between receiving and spending the money. To ensure it is generating income through interest, it is invested for a period of time between collection and expenditure. Income from investments can vary significantly due economic climate, interest rate fluctuations and expenditure against commitments.

Asset Sales

Our significant asset base includes infrastructure, property, plant and equipment. Operational holdings, that is land and buildings, are regularly reviewed to identify opportunities to dispose of assets no longer needed for service delivery. Any asset that is sold generates revenue from the sale and reduces the maintenance cost associated with continued ownership. As recently announced, following a significant analysis of our financial circumstances, including forensic auditing, Council have made the difficult but responsible decision to sell a number of key assets within our asset portfolio.

Proposed Property Disposals for 23/24

Englobo Parcels	Riverside Drive (6 lots)
	Akuna Street (Carpark)
	Bonaira business and site
Park Lots	Manning & Farmer St Kiama (Road closure - several lots)
	Pheasant Point Dr Kiama (Road closure - 1 lot)
	Noorinan St Kiama (Road closure - several lots)
Leased properties	Barney St Quarry Kiama (Landscape supply)

Budget Summary

The 2023/24 budget was developed based on the Strategic Improvement Plan (SIP) and parameters defined in Kiama Municipal Liquidity Plan and Financial Sustainability and Cash Flow Strategy, which were adopted by the Council. The key strategies for the budget are as follows:

- The Council plans to divest the Bonaira site and the services component of Blue Haven.
- The Council plans to refinance the \$15M TCorp loan, with the repayment of the loan tied to the sale of the Bonaira site and associated business.
- The Capital Works Program will focus on reserve-funded projects with a minimum allocation from unrestricted cash.

The 2023/24 budget prioritises providing sufficient funding for asset maintenance and ensuring a consistent level of services to the community. The Council is yet to perform a services review, and operational efficiencies will be incorporated into future years as indicated in the Long-Term Financial Plan.

The consolidated results before capital grants and contributions show a surplus of \$18.5M, primarily due to a forecasted gain on the sale of assets (\$31.2M). Excluding the gain on the sale of assets, the 2023/24 budget results in a deficit of \$12.6M.

General operations are projected to result in a reduction of unrestricted funds by \$8.1M, an improvement compared to the 2022/23 budgeted \$10.2M unrestricted cash outflow. The divestment of assets is projected to replenish the Council's unrestricted cash balance and improve the working capital position by \$14.7M as of the end of June 2024.

The Council plans to deliver \$13.9M worth of capital works in the next financial year, mainly funded by grants and other reserves. Please refer to Table 6 for a complete list of capital works.

Overall, the next year's budget demonstrates that the Council will continue to generate a deficit until the Bonaira site and operations are sold and other operational efficiencies are achieved.

Table 1 - Budget Summary 2024

Income Statement budget 2024 - Consolidated	
Revenue	Consolidated
Rates and annual charges	28,134,335
User charges and fees	23,002,301

Key financial indicators

Statement of Revenue Policy 2023-24

Income and Expenditure 2023-24

Overview

Council's revenue and accounting policies are kept in accordance with the Australian Accounting Standards Board. Council abides by the:

- Local Government Act (1993)
- Local Government (General Regulation 2021)
- Local Government Code of Accounting Practice and Financial Reporting

Income and Expenditure Estimates 2023-24

Our Delivery Program and Operational Plan include Council's predicted expenses and revenues. Council prepares its budget with the objectives of:

- Meeting Council's policies and procedures
- Maximising income from all existing sources in line with Council's policies
- Providing works and services at sustainable levels
- Achieving economy of operation
- Achieving further self-funding opportunities where appropriate

The 2023-24 estimates are prepared as a balanced budget excluding depreciation.

All councils continue to face increasing difficulty in being able to retain the current service levels they provide to the community.

This is due to the combination of a decline in government grants in real terms, state government rate pegging legislation that has seen rating revenue fall below the inflation level for the past decade, cost shifting to local government by other levels of government and increasing cost of materials and contracts.

We continue to review service levels in line with budget constraints. Council aims to continue to provide a high level of service; however, the above factors may result in reduced service levels in some areas in the future.

Council's Waste Business Unit will continue to operate our waste management services.

Revenue policy for ordinary rates to be levied

The rate peg (the maximum percentage amount by which Kiama Council may increase its general rate income) is 5.1% for financial year 2023-24 as set by the Independent Pricing and Regulatory Tribunal (IPART). This percentage increase will be reduced by the previously IPART approved one off Additional Special Rate Variation (ASV) of 0.9% reducing the rate peg increase to 4.2%.

The base amount and/or ad valorem cents in the dollar as shown below may vary up to 30 June 2023 if supplementary valuation changes influence the approved notional income.

Council's rating policy is as follows:

Table based on 5.1% Rate peg (effective net 4.2% after temporary additional special variation adjusted)

Category	Sub-Category	Ad valorem	\$	Base Amount		Total rate yield \$
				Base amount yield % of category	Base amount yield	
Residential		0.00077430	896.80	49.75	8,895,723.76	17,881,365.18
Residential	Rural Residential	0.00087470	896.80	25.28	124,534.49	492,617.21
Farmland		0.00064050	896.80	27.57	210,748.00	764,346.82
Business	Commercial/ industrial	0.0035100	896.80 minimum applies	N/A	N/A	1,571,721.55
Business	Ordinary	0.00186252	N/A	N/A	N/A	42,166.53

Categorisation of Land

In accordance with Section 514 of the Local Government Act 1993 each parcel of land within our municipality is categorised for rating purposes and all categories are now declared as at 30 June 2022.

Residential - Includes any rateable parcel of land valued as one assessment and the dominant use is for residential accommodation, or if vacant land is zoned or otherwise designated for use for residential purposes under an environmental planning instrument or is rural residential land. Sub-categories are determined on whether the land is rural residential land, within a centre of population, or whether the land is in a residential area or in part of a residential area.

Farmland - Includes any parcel of rateable land valued as one assessment and the dominant use of the land is for farming. The farming activity must have a significant and substantial commercial purpose or character and must be engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made). Sub-categories are determined according to the intensity of land use or economic factors affecting the land.

Business - Is rateable land that cannot be classified as farmland, residential or mining. Sub-categories are determined on whether the land is located within a defined centre of activity.

Revaluation

The general revaluation of land within council areas usually occurs every three years. These valuations, determined by the State Government's Valuer General, are the basis of the rates notices issued by Council. Land valuations are the primary factor used in determining landowners' level of rates. Council rates are calculated on the valuations as at 1 July 2022 for 2023-2024.

Council's total General Income is determined by the rate peg percentage set by the Independent Pricing and Regulatory Tribunal (IPART). Variations in land value through the revaluation process does not affect the total rate income of Council. Individual assessments, however, will vary depending on the change in land value in relation to the average change in land value within a rate category. Effectively, if the value of an individual parcel of land has increased by more than the average increase across the Local Government Area, the rates will increase. If the property value increase is lower than average, the rates will decrease. As there is a significant spread in valuation changes, individual properties could vary substantially in rates applied.

Hardship

Council recognises that due to exceptional circumstances, ratepayers may at times encounter difficulty paying their annual rates and charges. Council has a Debt Recovery and Hardship Assistance Policy that provides a framework for providing relief to any ratepayers who are suffering genuine financial hardship.

Pensioner Rebate – Rates

Concessions are available to eligible pensioners on their rates and charges up to \$250. Eligible pensioners must own and reside at the rated property and are the holder of one of the following:

- Pensioner Concession Card (PCC)
- DVA Gold Card embossed with 'TPI' (Totally Permanently Incapacitated)
- DVA Gold Card embossed with 'EDA' (Extreme Disablement Adjustment), or
- A war widow/widower or wholly dependent partner entitled to the income support supplement.

If you do not have a Pensioner Concession Card, contact DVA. They'll determine your eligibility by an income and assets test.

In addition to the concessional pensioner rebate of \$250 Council provides an additional \$25 rate rebate.

Requests for retrospective rebates may be approved for the current rating year and a maximum of one prior rating year only.

Interest on rates and charges

Interest is charged on all overdue rates and annual charges in accordance with section 566(3) of the Act. The City will adopt the maximum interest rate permitted by the Minister for Local Government for the 2023-24 financial year.

Stormwater Management Service Charge

The Local Government Act 1993 was amended in 2005 to allow councils to levy a stormwater management service charge (SMSC). This change was made in recognition of councils' needs for sustainable funding to support their key role in stormwater management. Land within an urban area (a city, town or village) that is in the residential and business categories for rating purposes, except vacant land, will be charged the stormwater management levy.

What is Stormwater Management?

For the purpose of the annual stormwater management services charge, stormwater management is defined as the management of the quality and quantity of stormwater that flows off a parcel of privately owned, developed urban land.

The estimated income from Council's Stormwater Management Charge will be approximately **\$227,546.00**.

Stormwater Management Service Charge (+SMSC)	Annual Charge	Number of Services	Amount
Residential property	\$25	7,618	\$190,450
Residential strata units	\$12.50/unit	1,494	\$18,675
Business properties	\$25/350m2 (or part thereof) Capped at \$150	611	\$15,275
Business strata lots	\$25/350m2 (or part thereof) minimum charge of \$5.00	306	\$3,146

Domestic Waste Management Charge

Council levies an annual Domestic Waste Management Charge for providing domestic waste management services to properties located in the Municipality's urban areas that are categorised as "Residential" or "Rural Residential" premises located along designated waste collection routes.

The Domestic Waste Management Charge is based on the size of the red lid garbage bin selected by the property owner. However, where premises are used as Short-Term Rental Accommodation (STRA) the largest red lid garbage bin size (240 litre) service must be provided as a minimum.

A separate Domestic Waste Management Charge will be charged to each property, unit, flat or dwelling within residential properties including those that use shared bins, such as multi-dwelling housing, seniors housing, shop top housing and residential flat buildings. Council determines its annual Domestic Waste Management Charge and Rural Waste Management Charge by considering all reasonable costs it expects to incur.

Costs include:

- Garbage, recycling, garden and food/garden organics collection (if applicable) and processing fees
- Kerb side Clean-up (if applicable) and Bulky Waste Drop-Off services
- Ongoing waste depot rehabilitation works
- Future waste transfer and facilities
- Waste disposal costs
- NSW Government's Section 88 Waste Levy charged to Council.

We estimate 9,902 waste services will be provided to urban premises in 2023-24. Approximately 181 vacant land properties will be subject to the Vacant Land Waste Charge.

The estimated income from Council's Domestic Waste Management Charges will be approximately \$6,217,418.00

Urban Collection Frequency

The type of collection service and frequency for the urban zones will be a fortnightly domestic waste service, a weekly recycling service and a weekly food/garden organics service. An extra garbage (red lid) collection service will be provided during the Christmas new year period.

Short Term Rental Accommodation (STRA)

For premises used as STRA for holiday purposes, the applicable weekly domestic waste management charge is for a 240 litre red lid garbage bin and the annual Domestic Waste Management Charge applies (plus any administration and bin establishment fees):

Specific Waste Bin Collection Service

Upon application and approval by council, households that generate excessive quantities of non-recyclable waste as a result a verified permanent or long-term medical condition can have their existing red lid bin serviced weekly at no extra cost.

Approval is granted for twelve months only, after this time, property owners will need to re-apply.

Shared Bin Arrangement Multi-Unit Developments

In the case of multi-unit developments with limited storage space, shared garbage, recycling and food/garden organics bins service may be made available by Council. The frequency and collection arrangements may be different.

Where a shared bin arrangement is established, each unit will be charged at the 140 litre Domestic Waste Management Charge as a minimum, except where the unit is being used as a STRA for holiday purposes.

Subject to application and approval, an 80 litre or 140 litre food/garden organics bin can be provided for multi-unit dwellings, duplexes and for senior citizens if requested. No charges apply for the supply and delivery of these replacement bins when the exchange of bins has taken place.

Where a shared bin arrangement has been established, the property owner or body corporate is responsible for purchasing the allocated number of new bins for the development prior to service commencement.

Bulky Waste Drop Off Service

Two household bulky waste drop off services will apply to all properties within the urban zones that pay for a domestic waste service. In addition, urban households only, will have access to the User Pays On-call Clean Up Service. Eligible households are required to book through Council's Waste Services to arrange to have up to 1m³ of eligible material collected from the kerbside for a fee of \$85.00. Payment is required at the time of booking.

The additional bin must be purchased prior to commencement of the service.

Urban Area Non-Residential Properties

Multi-Storey Tourist Accommodation

The following charges will apply to premises that are zoned or defined as multi-storey tourist accommodation.

These charges do not apply for Short Term Rental Accommodation (STRA) premises.

Waste Service	Annual Charge	Number of Services	Amount
<ul style="list-style-type: none">Weekly service 80 litre BinFortnightly Recycling 240 litre bin(Suitable for a one-bedroom unit)	\$509.00	74	\$37,666
<ul style="list-style-type: none">Weekly service 140 litre binFortnightly recycling 240 litre bin (suitable for a two-bedroom unit)	\$536.00	0	\$0
<ul style="list-style-type: none">Weekly service 240 litre binFortnightly recycling 240 litre bin (suitable for three-bedroom unit)	\$773.00	0	\$0.00

No food/garden organics collection service, access to User Pays On Call clean up service or household bulky-waste drop-off provided. Additional garbage and recycling services can be provided subject to applicable charges.

Commercial Waste, Recycling and Food/ Garden Organics

Waste Service	Annual Charge	Number of Services	Amount
<ul style="list-style-type: none">Weekly service 240 litre binWeekly recycling 240 litre binWeekly food/garden organics 240 litre bin*	\$791.00	225	\$177,995
<ul style="list-style-type: none">Weekly garbage 240 litre binFortnightly recycling 240 litre binWeekly food/garden organics 240 litre bin*	\$721.00	24	\$17,304

*The weekly food/garden organics service is only available to childcare centres, pre-schools, churches, neighbourhood and community centres, rural fire and emergency services premises or other similar facilities upon request and approval.

Each additional garbage, recycling or food/ garden organics service 240 litre bin is \$15.00 per service.

Commercial recyclable materials collection (per service)

Service	Cost per Service (GST inclusive)
Paper/cardboard and/or co-mingled recycling - 1,100 litre container	\$26.00
Glass, aluminium, steel, PET, HDPE, etc - 240 litre bin	\$13.00
Glass, aluminium, steel, PET, HDPE, etc - 360 litre bin (if available)	\$19.00

Contamination of Bins and Inspections

To comply with Council's organics collection and processing contracts, visual bin inspections are conducted at random to assess contamination levels and prohibited materials. If contamination is present, it may mean that the organics and recyclable materials cannot be processed and it has to be disposed of at landfill at a significant cost.

The fact sheet '*OK Organics Kiama Bin Contamination*' on our website has information regarding prohibited and hazardous materials that cannot be placed in the organics, recycling or garbage bins. Information is also provided on what action will be taken by Council when non-compliance occurs. This includes bins not being collected until the non-compliant material is removed.

Rural Waste Collection Service

Council will provide fortnightly garbage and fortnightly recycling collection services to premises in rural areas upon request. This is subject to application and approval.

Waste Service	Annual Charge
<ul style="list-style-type: none">Fortnightly 240 litre garbageFortnightly 240 litre recyclingTwo Household Bulky Waste Drop-off Services	\$477.00*

* Additional charges apply for the purchase of bins if needed.

Additional garbage and recycling service is provided during the Christmas and New Year period.

The following services are not included in rural waste collections:

- Access to User Pays On-Call Clean Up Service
- OK Organics Kiama
- Weekly recycling

Special events and casual hire charges

Waste services may be hired for special events or on a casual basis. Charges (GST inclusive) include bin hire and servicing, delivery, collection and cleaning, tipping or processing fees.

Cost per service (GST inclusive)	
240 litre garbage bin	\$24.00
360 litre garbage bin*	\$34.00
240 litre recycling bin	\$24.00
360 litre recycling bin*	\$34.00
240 litre food organics bin*	\$24.00
Delivery and collection costs for 240 or 360 litre bin (per bin)	\$8.00
1100 litre container cardboard or paper or mixed recycling container	\$55.00
Delivery and collection costs for 1100 litre container*	\$55.00
(if delivered with 240 litre bins (per container))	\$33.00
Bin cleaning (per bin)	\$8.00
Container cleaning (per container)	\$20.00

* Subject to implementation of OK Organics Kiama service to commercial premises.

Bin Audit

Council will undertake a bin audit at least every two years to identify any discrepancy between the size and number of bins collected at the property to the bin charge shown on the annual Rates and Charges notice.

Where a discrepancy is found the financial adjustment will be for the current and one previous year.

Onsite Sewage Management Facilities

Approximately 950 onsite sewage management facilities are located in the Kiama Local Government Area. Under the *Local Government Act 1993* these facilities are required to be classified as either high or low risk.

High-risk sites are inspected annually. A charge of \$175.00 per annum applies.

Low-risk sites are inspected a minimum of every four years. An annual charge of \$47.50 (\$190.00 total) applies.

Revenue policy for charges proposed to be charged

Under Section 608 of the Local Government Act 1993, Council may charge and recover an approved fee for its services. Fee for service charges may not be placed on services provided (or proposed to be provided) annually for which Council is authorised or required to charge an annual fee.

Services where an approved fee may be charged include:

- supplying a service, product or commodity
- giving information
- providing a service related to Council's regulatory functions including receiving an application for approval, granting an approval, conducting an inspection and issuing a certificate
- allowing admission to any building or enclosure.

Pricing policy for proposed fees

Council must consider the following when establishing approved fees:

- the cost of provision of the service
- recommended prices suggested by outside bodies
- the importance of the service
- legislation that regulates certain fees
- Goods and Services Tax legislation

Charges for works carried out on private land

Charges for private works under s67 of the LG Act will be determined on an individual site and scope of works basis per application. The charge for the private works will be based on achieving at least full cost recovery, including all administrative overheads as well as taking into account council's operational needs and commitments.

Statement of Revenue Policy 2023-24

Strategic choices for a sustainable future
