

APPLICATION TO CONSTRUCT FOOTPATH CROSSING & GENERAL CONCRETE WORKS

Use this 2021-2022 form to apply for permission to carry out driveway crossing and pathway works in Council controlled road reserves. An application fee is payable.

Up to 48 hours (two full business days) shall be allowed for processing of an application. Work (including excavation) shall not commence until payment has been acknowledged by Council.

At least 24 hours notice is to be given to Council when work has reached the following stages:

- i. when the site is excavated with formwork and reinforcing in place, ready for pouring of concrete
- ii. at each stage of any road pavement construction
- iii. when all work has been completed and the site has been tidied up.

Note: Orders of ready mixed concrete should not be confirmed until the formwork and reinforcing has been approved by Council's driveway inspector.

Contact our Driveway Inspector on (02) 4232 0429 or 0407 014 138 to arrange inspection

Note 1: Second access details required

1. The owner must apply in writing to Council requesting permission for a second driveway access. This letter of request must set out the reasons for the necessity of the second driveway access.
2. Dimensional sketch plan of the site including:
 - a) location of dwelling
 - b) location of existing/future garage/carport/hardstand
 - c) width of property
 - d) distances of existing/future parking area from front and side boundaries
 - e) distances between existing/proposed layback.

Note 2: Type of finish

Council recognises the increasing desire for residents to create a less harsh and a more natural or “attractive” appearance in the construction of footpath crossings. To achieve this aim Council will accept coloured concrete, brick or concrete block paving, and patterned or moulded concrete finishes in the footpath crossing subject to the following conditions:

- a) coloured concrete to be restricted in range to colours which blend in with, and do not conflict with, the existing street scene
- b) brick and block paving to be constructed on an appropriate sound base and the joints to be formed so as to provide an even walking surface
- c) in the case of patterned or moulded concrete finishes, Council will accept no responsibility for any reinstatement work
- d) they are only approved in streets which are fully serviced and in which the need to provide additional underground services within a reasonable time period is not evident
- e) the Director of Engineering and Works, or his representative, approves of the particular surface finish from the aspects of its structural adequacy and its relative convenience for maintenance work.

Note 3: Replacement Laybacks

Coloured laybacks that require replacement by council will be replaced with plain concrete.
