

Dear Van Owner

**RE: Further Update**

On 7 December 2022, we wrote to advise you of an extended deadline to submit the 'Advice of Required Compliance Works' forms, completion of compliance works and the removal or relocation of affected holiday vans.

We acknowledge the project then experienced further delays, due to being without a Project Manager for almost six months, which has slowed the design and planning processes.

We understand the frustration this has caused all Van Owners, particularly not having all of the answers to the questions you have been asking, and for that we sincerely apologise.

We are pleased to advise that we now have a Project Manager back on board, who is currently working through the compliance requirements for all of our Holiday Parks. His first priorities are the road design and site availability.

We are committed to supplying details of any new road design as soon as it becomes available, and once a plan has been designed identifying any new van sites we will be providing ballot details to those van owners who have to relocate their vans.

In the meantime, Council has agreed to a further extension as follows:

- Advice of Required Compliance works forms must be submitted by 1 December 2023
- Once approved, compliance works should be completed by 1 May 2024
- Vans that are to be removed or relocated can remain on their current site until 1 May 2024

Unfortunately, we are still yet to receive a response in relation to the dispensations sought. As soon as we have any information on these, we will advise all van owners impacted.

We understand what a difficult time this has been and wish that circumstances were different. Unfortunately, we have been faced with a number of hurdles but please be assured, Council is doing what we can to overcome them.

Thank you for your patience and we will continue to share regular updates with you, as information becomes available.

Kind regards

Gillian Moore
